SUBJECT INDEX FOR VOLUME 48, 1979

A

Acetate use for body tissue synthesis
  Effect of diet on partial efficiency of, by mature cattle, 598
Acetic acid, effects of ruminal infusion of
  Onto three hay to concentrate ratios on apparent digestibilities and rumen parameters in cattle, 1491
Acidosis, glucose induced lactic
  Histamine, tyramine, tryptamine and electrolytes during, 367
Acids, effect of dietary arsonic
  On fresh swine waste composition and anaerobic decomposition, 1305
Adipose tissue development, perirectal
  Of postweaned rapidly growing bull calves, 525
Aflatoxin
  Performance of pigs on diets containing heated or unheated corn with or without, 1394
Age and early growth, influences of
  On reproductive performance of yearling Hereford heifers, 1089
Age of dam, effect of
  Growth rate of thoroughbreds. Year and month of birth and sex of foal, 480
Age, season and breed effects
  On testicular volume and semen traits in young beef bulls, 1299
Alfalfa, nutritional quality of
  Effects of magnesium fertilization on mineral utilization and, for lambs, 1191
Alkali treatment
  Wheat straw-urea diets for beef steers:, and supplementation with protein, monensin and a feed intake stimulant, 1223
Ammonia
  Nitrogen distribution in corn silage treated with varying levels of, 1509
Ammonia release, *in vitro* and *in vivo*
  From "slow release" urea supplements, 887
Ammonia, the volatilization of
  Effect of ration, waste composition and length of storage on, hydrogen sulfide and odors from cattle waste, 436
Anabolic steroids
  Effects of implanting prepuberal dairy heifers with, on hormonal status, puberty, and parturition, 859
Anerobic decomposition
  Effect of dietary arsonic acids on fresh swine waste composition and, 1305
Angus and Charolais X Angus steers
  Production and carcass characteristics of, 239
Angus and Hereford calves
  Estimates of heritabilities and correlations for production characters of, 286
Angus and milking Shorthorn cattle, crossing
  Carcass traits of steers, 517
Angus, Zebu and Zebu-cross cattle
  Factors affecting pregnancy rate of, 1312
Anhydrous ammonia treatment, effect of
  On the intake and digestibility of straws by steers, 1223
Animal management
  Forage and, implications of spring and fall calving, 425
Antibody response
  Immunoglobulin G, A and M and, in sow-reared and artificially-reared pigs, 1116
Antibiotics, various
  Sensitivity of *Streptococcus bovis* to, 468
Apple pomace diets
  Rumen microbial population, movement of ingesta from the rumen, and water intake of steers fed, 1202
Aqueous porcine pineal extract
  Inhibition of ovulation induced with PMSG and HCG in immature mice, 1422
Aspergillus oryzae and *Rhizopus oligosporus*
  Whole soybeans fermented with, for growing pigs, 63
Attrition in crossbred ewes
  Genetic and environmental effects on internal parasites, foot soundness and, 1329
Avoparcin, effect of
  And monensin on feedlot performance of beef cattle, 1338

B

Bacterial growth rate, maximum
  Effect of pH on, and its possible role as a determinant of bacterial competition in the rumen, 251
Barley diets
  Net energy evaluation of, for cattle in cold environments, 1447
Beef bulls, young
  Age, season and breed effects on testicular volume and semen traits in, 1299
Beef cattle
  Effect of avoparcin and monensin on feedlot performance of, 1338
  Effect of nutrition on response to exogenous FSH in, 1182
  Effect of tall fescue and quackgrass on copper metabolism and weight gains of, 893
  Genetic evaluation of, for weaning weight, 1070
  Postharvest pineapple plant forage as a feedstuff for,: evaluated by laboratory analyses, *in vitro* and *in vivo* digestibility and feedlot trials, 1040
Beef cattle field data
  Sire by environment interactions in, 307
Beef cattle, growing-finishing
  Crambe meal as a source of supplemental protein for, 758
  Effect of soybean, feather and hair meals and fat on the performance of, 748

Beef cows
Chemical composition of necrotic fat lesions in, grazing fertilized "Kentucky-31" tall fescue, 673
Forage composition and utilization of grain sorghum residue by, 919
Beef cows, fall-calving
Effect of magnesium and energy supplementation on blood constituents of, 1209
Beef cows, gestating
Addition of trace minerals, starch and straw to apple pomace urea diets for, 495
Beef cows, lactating
Forage intake and performance of, grazing high or low quality pastures, 692
Beef cows, postpartum
Hormone treatments and use of calf removal in, 1285
Beef cows, underfed postpartum anestrous
Follicular development and function of induced corpora lutea in, 867
Beef production efficiency, size as a component of
Feedlot production and integrated efficiency, 966
Beef production system, tropical
Milk yield of Brahman cows in a, 1
Beef steers, wheat straw-urea diets for
Alkali treatment and supplementation with protein, monensin and a feed intake stimulant, 1223
Bermudagrass protein, coastal
Influence of formaldehyde treatment and energy additions on microbial metabolism of, in wethers, 660
Biological types of cattle (cycle II)
Characterization of, II. Postweaning growth and puberty of heifers, 500
Birth and weaning traits
Characterization of biological types of cattle – cycle III:, 271
Birth weight
An embryo transfer study of, in Finnish Landrace and Targhee sheep, 298
Birth, year and month of
Growth rate of thoroughbreds. Effect of age of dam, and sex of foal, 480
Blood constituents, energy supplementation of
Effect of magnesium and, of fall-calving beef cows, 1209
Blood flow recording, electromagnetic
And balance of nutrients in the udder of lactating cows, 1143
Blood serum
Relationships between concentrations or porcine prolactin in, and milk of lactating sows, 876
Blood serum composition
Effect of transportation and handling of calves upon, 430
Bluegrass straw
Digestibility and utilization of, harvested on three different dates, 464
Bluestem digestion
Structural inhibitors of big and little, observed by scanning electron microscopy, 1457
Boars, performance of young
Effect of housing management of reproductive development and, 246
Boars, photoinduction of puberty in
During naturally occurring short day lengths, 1159
Boars, tested
Production traits and visual scores of, 723
Boars, young
Effect of housing management of reproductive development of and performance of, 246
Body condition, effect of final
Realimentation of cull range cows. I., and dietary energy level on rate, efficiency and composition of gains, 913
Body tissue synthesis in mature cattle
Effect of diet on partial efficiency of acetate use for, 598
Body weight
Relationships among luteinizing hormone, estradiol, progesterone, glucocorticoids, milk yield, and postpartum ovarian activity in Holstein cows, 570
Bone development of young ponies
Effect of vitamin D and sunlight on growth and, 882
Bovine follicular oocytes, characterization of
And their ability to mature *in vitro*, 76
Bovine lipids
Fatty acid composition of, as influenced by diet, sex and anatomical location and relationship to sensory characteristics, 1343
Brahman cows, milk yield of
In a tropical beef production system, 1
Brangus heifers, puberty in
Dietary alteration of ruminal fermentation on efficiency of growth and onset of, 488
Breed effects, age, season and
On testicular volume and semen traits in young beef bulls, 1299
Breeding period, the
Reproductive performance of two- and three-year-old bulls assigned twenty-five or forty cows during, 1020
Broodmares, minimally managed
The use of protein blocks containing urea for, 459
Buffers, dietary
And ruminal and blood parameters of subclinical lactic acidosis in steers, 683
Bull calves
Perirectal adipose tissue development of post-weaned rapidly growing, 525
Bulls, carcass traits of
Comparison of four levels of protein supplementation with and without oral diethylstilbestrol on daily gain, feed conversion and, 1026
Bulls, reproductive performance of
Two- and three-year-old, assigned twenty-five or forty cows during the breeding period, 1020
Bulls, testosterone of
Comparison of four levels or protein supplementation with and without oral DES on reproductive traits and, 1033

C

Calf removal, use of
Hormone treatments and, in postpartum beef cows, 1285

Calves, Angus and Hereford
Estimates of heritabilities and correlations for production characters of, 286
Calves, feeder
Monensin supplemented winter pasture for growing 1295
Calves, spring
Cow-calf production on tall fescue-ladino clover pastures with and without nitrogen fertilization or creep feeding, 13
Calves, taste responses of sheep and
Effects of diet and feeding level on, to sucrose solutions, 1177
Calves, transportation and handling of
Effect of, upon blood serum composition, 430
Calving ease
Ranking sires for, 293
Calving, spring and fall
Forage and animal management implications of, 425
Carcass characteristics
Production and, of Angus and Charolais X Angus steers, 239
Carcass composition, estimation of bovine
By the urea dilution technique, 319
Carcass composition, prediction of
Realimentation of cull range cows, 831
Carcass traits, changes in
Realimentation of cull range cows, 823
Carcass traits of steers
Crossing Angus and milking Shorthorn cattle, 517
Cattle
Effects of ruminal infusion of acetic acid onto three hay to concentrate ratios on apparent digestibilities and rumen parameters in, 1491
Cattle, beef
Effects of mating systems on weaning traits in, 7
Feeding value of rations containing nonprotein nitrogen or natural protein and of ammoniated straw for, 38
Cattle, biological types of
Characterization of Cycle III: I. Birth and weaning traits, 271
Cattle, crossing Angus and milking Shorthorn
Carcass traits of steers, 517
Feedlot performance of steer, 313
Cattle (cycle II), biological types of
Characterization of, II. Postweaning growth and puberty of heifers, 500
Cattle, dairy
Serum progesterone and luteinizing hormone in, fed varying levels of crude protein, 1154
Cattle, feeding behavior changes of
During introduction of monensin with roughage or concentrate diets, 1501
Cattle, feeds for
Application of enzymatic analysis with glucoamylase, pronase and cellulase to various, 1483
Cattle in cold environments
Net energy evaluation of barley diets for, 1447
Cattle, mature
Effect of diet on partial efficiency of acetate use for body tissues synthesis by, 598
Cattle waste, ensiled
Ensiling characteristics, digestibility and feeding value of, and ground hay with and without sodium hydroxide, 104
Cattle waste, odors from
Effect of ration, waste composition and length of storage on the volatilization of ammonia, hydrogen sulfide and, 436
Cement kiln dust
Incomplete diets for finishing steers and growing lambs, 658
Cereal straws, intake and digestibility of
Effect of anhydrous ammonia treatment on the, by steers, 1239
Charolais X Angus steers
Production and carcass characteristics of Angus, 239
Chemical changes and flavor of ground beef
Effects of energy intake and feed source on, during frozen storage, 338
Chemical characteristics of ground beef patties
Effects of freezing methods and frozen storage on, 1101
Cholesterol concentrations in swine
Effect of dietary zinc and copper on performance and tissue mineral and, 1123
Choline requirement
Of young swine, 1366
Colorimetric method, a
For the determination of proteolytic degradation of feed proteins by rumen microorganisms, 947
Confinement, gilts reared in
Effect of methallibure on estrous response of behaviorally anestrous, 87
Copper, effect of dietary zinc and
On performance and tissue mineral and cholesterol concentrations in swine, 1123
Copper metabolism
Effect of tall fescue and quackgrass on, and weight gains of beef cattle, 893
Corn and corn silage, moisture levels of
Effect of fat and lecithin and of, on nutrient digestibility by ruminants, 900
Corn, heated or unheated
Performance of pigs on diets containing, with or without aflatoxin, 1394
Corn oil supplemented diet
Utilization of a, by the pony, 1379
Corn silage
Nitrogen distribution in, treated with varying levels of ammonia, 1509
Corn silage, ammonia-mineral suspension treated
Protein levels and monensin for growing and finishing beef cattle, 742
Corpora lutea, induced
Follicular development and function of, in underfed postpartum anestrous beef cows, 867
Corpora lutea, life-span of
Effect of continuous intrauterine administration of prostaglandin F_2 on, of nonpregnant ewes, 1441
Corpora lutea regression
Endocrine response of the cow to PMSG and subsequent multiple, by prostaglandin $F_{2\alpha}$, 1135
Cottonseed flour, LCP
As a protein source for swine, 1216
Cottonseed meal
Dehydrated poultry excreta vs, as nitrogen supplements for Holstein steers, 633
Cow-calf production
On tall fescue-ladino clover pastures with and without nitrogen fertilization or creep feeding: spring calves, 13

Size as a component of beef production efficiency:, 974
Cow, endocrine response of the
To PMSG and subsequent multiple corpora lutea regression by prostaglandin $F_{2\alpha}$, 1135
Cows, Holstein
Relationships among luteinizing hormone, estradiol, progesterone, glucocorticoids, milk yield, body weight and postpartum ovarian activity in, 570
Cows, lactating
Electromagnetic blood flow recording and balance of nutrients in the, 1143
Crambe meal
As a source of supplemental protein for growing-finishing beef cattle, 758
Creep feeding
Cow-calf production on tall fescue-ladino clover pastures with and without nitrogen fertilization or,: spring calves, 13
Crossing Angus and milking Shorthorn cattle
Feedlot performance of steers, 313
Cull range cows, realimentation of
1. Effect of final body condition and dietary energy level on rate, efficiency and composition of gains, 913
2. Changes in carcass traits, 823
3. Prediction of carcass composition, 831

D

Dairy cows, lactation in
Determination of rumen fill, retention time and ruminal turnover rates of ingesta at different stages of, 381
Degradation of feed proteins by rumen microorganisms
A colorimetric method for the determination of proteolytic, 947
Delaney clause
Scientific basis for interpretation of, 986
Denver sewage sludge, metropolitan
Fed to feedlot steers, 735
DES, oral
Comparison of four levels of protein supplementation with and without, on reproductive traits and testosterone of bulls, 1033
Developments, recent
In predicting forage quality, 1554
Dichlorvos
Effect of late gestation feeding of, in nonparasitized and parasitized sows, 45
Diet, a complete ensiled
Ration digestibility and mineral balance in steers fed, 1525
Diet, a low zinc
Effect of, on the ewe during pregnancy and lactation, 1234
Diet and feeding level, effects of
On taste responses of sheep and calves to sucrose solutions, 1177
Diet, corn oil supplemented
Utilization of a, by the pony, 1379
Diet digestibility, monensin effects on
Ruminal protein bypass and microbial protein synthesis, 1516
Diet, effect of
On partial efficiency of acetate use for body tissue synthesis by mature cattle, 598
Diet, sex and anatomical location
Fatty acid composition of bovine lipids as influenced by, and relationship to sensory characteristics, 1343
Dietary calcium levels, effects of
On concentration and solubility of macrominerals in the digestive tract of sheep, 954
Dietary energy level
Realimentation of cull range cows. I. Effect of final body condition and, on rate, efficiency and composition of gains, 913
Dietary zinc and copper, effect of
On performance and tissue mineral and cholesterol concentrations in swine, 1123
Diethylstilbestrol, oral
Comparison of four levels of protein supplementation with and without, on daily gain, feed conversion and carcass traits of bulls, 1026
Diets
Performance of pigs on, containing heated or unheated corn with or without aflatoxin, 1394
Diets, apple pomace-urea
Addition of trace minerals, starch and straw to, for gestating beef cows, 495
Diets, concentrate
Feeding behavior changes of cattle during introduction of monensin with roughage or, 1501
Diets for beef steers, wheat straw-urea
Alkali treatmen^ and supplementation with protein, monensin and a feed intake stimulant, 1223
Diets for ruminants, high grain
Effects of adding sodium bentonite to, 641
Diets for young weaned pigs
Effects of high-protein oats in, 1374
Diets, high-concentrate
Sodium bentonite and sodium bicarbonate in, for lambs and steers, 764
Diets, high fiber
Value of, for gravid swine, 1385
Diets, swine starter and grower
Nutritional evaluation of triticale in, 547
Digesta particle
Extent of particulate marker (samarium, lanthanum and cerium) movement from one, to another, 375
Digestibility and utilization of bluegrass straw
Harvested on three different dates, 464
Digestibility, *in vitro* and *in vivo*
Postharvest pineapple plant forage as a potential feedstuff for beef cattle; evaluation by laboratory analyses, and feedlot trials, 1040
Disaccharidase activities, intestinal
Of three breeds of swine, 1349
Drylot *vs* pasture
Early-weaned lamb performance to two slaughter weights, 32

E

Embryo transfer study, an
Of birth weight in Finnish Landrace and Targhee sheep, 298

Endocrine response of the cow to PMSG
And subsequent multiple corpora lutea regression by prostaglandin $F_{2\alpha}$, 1135
Endotoxin, rumen bacterial
Chemical characteristics of, 1250
Energy intake, effects of
And feed source on chemical changes and flavor of ground beef during frozen storage, 338
Energy level, effect of
On ruminal (D-) and (L+) lactic acid metabolism, 624
Energy status, maternal
And development of liver and muscle in the bovine fetus, 1538
Energy utilization
Effect of methionine hydroxy analog on, of a bird-resistant sorghum grain diet fed steers, 1475
Environment interactions
Sire by, in beef cattle field data, 307
Enzymatic analysis, application of
With glucoamylase, pronase and cellulase to various feeds for cattle, 1483
Epinephrine treatment
Effects of prednisolone or, on development of induced pale, soft and exudative pork, 531
Equimate (ICI-81008), effects of
On levels of luteinizing hormone, follicle-stimulating hormone and progesterone during the estrous cycle of the mare, 69
Errata, 238, 717, 994, 1280, 1567
Estradiol
Relationships among luteinizing hormone, progesterone, glucocorticoids, milk yield, body weight and postpartum ovarian activity in Holstein cows, 570
Estradiol, low doses of
Fertility in ewes receiving, during synchronized estrus, 52
Estrus synchronization, experiences with
In sheep over a twelve-year period using oral MAP treatment for ten days, 1015
Estrus synchronized
Fertility in ewes receiving low doses of estradiol during, 52
Ewe
Effect of a low zinc diet on the, during pregnancy and lactation, 1234
Ewes
Effect of intrauterine threads on fertilization rate in, 1429
Ewes, crossbred
Genetic and environmental effects on internal parasites, foot soundness and attrition in, 1329
Ewes, fertility in
Receiving low doses of estradiol during synchronized estrus, 52
Ewes, nonpregnant
Effect of continuous intrauterine administration of prostaglandin F_2 on life-span of corpora lutea of, 1441
Ewes, productivity of fall-lambing
Effects of substituting Finnsheep and Dorset breeding for Rambouillet breeding, 265
Ewes, productivity of young spring-lambing
Effects of substituting Finnsheep and Dorset breeding for Rambouillet breeding, 256
Ewes, rectal damage in,
Following pregnancy diagnosis by rectal-abdominal palpation, 348
Excreta, dehydrated poultry
Vs cottonseed meal as nitrogen supplements for Holstein steers, 633
Extracts, wood hemicellulose
Isolation of biologically active fractions from, 1129

F

Fat
Effect of soybean, feather and hair meals and, on the performance of, 748
Fat and lecithin, effect of
And of moisture levels of corn and corn silage on nutrient digestibility by ruminants, 900
Fat and lysine, evaluation of added
To sorghum-soybean meal diets for swine, 541
Fat deposition in polygenic obese mice
Effects of pregnancy and mating age on protein and, 810
Fat in ruminants
Deposition, secretion, transport and oxidation of, 1530
Fat lesions, necrotic
Chemical composition of, in beef cows grazing fertilized "Kentucky-31" tall fescue, 673
Fatty acid composition of bovine lipids
As influenced by diet, sex and anatomical location and relationship to sensory characteristics, 1343
Feather and hair meals, soybean
Effect of, and fat on the performance of growing-finishing beef cattle, 748
Feed flavors for pigs
Evaluation of rearing systems and, weaned at two to three weeks of age, 999
Feed proteins, proteolytic degradation of
A colorimetric method for the determination of, by rumen microorganisms, 947
Feeding and fasting, high concentrate
Effect of, on plasma glucocorticoids in dairy heifers, 961
Feeding, liquid *vs* dry
Nutrition and management of early weaned piglets, 1007
Feeding value of ensiled cattle waste and ground hay
Ensiling characteristics, digestibility and, with and without sodium hydroxide, 104
Feedlot performance of beef cattle
Effect of avoparcin and monensin on, of beef cattle, 1338
Feedlot performance of steers
Crossing Angus and milking Shorthorn cattle, 313
Feedlot production and integrated efficiency
Size as a component of beef production efficiency, 966
Feeds for cattle, various
Application of enzymatic analysis with glucoamylase, pronase and cellulase to, 1483
Feedstuff, a potential
Postharvest pineapple plant forage as, for beef cattle: Evaluated by laboratory analyses, *in vitro* and *in vivo*-digestibility and feedlot trials, 1040

Feet and legs soundness
Genetic aspects of, in swine, 1329
Fermentation, ruminal
Dietary alteration of, on efficiency of growth and onset of puberty in Brangus Heifers, 488
Fertility in ewes
Receiving low doses of estradiol during synchronized estrus, 52
Fertilization rate in ewes
Effect of intrauterine threads on, 1429
Fescue, tall
Effect of, and quackgrass on copper metabolism and weight gains of beef cattle, 893
Fetus, bovine
Development of the, 1546
Maternal energy status and development of liver and muscle in the, 1538
Fiber diets, high
Value of, for gravid swine, 1385
Finnsheep and Dorset breeding, effects of substituting for Rambouillet breeding
I. Productivity of young, spring-lambing ewes, 256
II. Productivity of fall-lambing ewes, 265
Foal, sex of
Growth rate of thoroughbreds. Effect of age of dam, year and month of birth, and, 480
Follicular development
And function of induced corpora lutea in underfed postpartum anestrous beef cows, 867
Foot soundness
Genetic and environmental effects on internal parasites, and attrition in crossbred ewes, 1329
Forage
And animal management implications of spring and fall calving, 425
Forage composition
And utilization of grain sorghum residue by beef cows, 919
Forage digestion by rumen microorganisms
Microscopic evaluation of,. A review, 701
Forage intake and performance of lactating beef cows grazing high or low quality pastures, 692
Forage, postharvest pineapple plant
As a potential feedstuff for beef cattle: evaluated by laboratory analyses, *in vitro* and *in vivo* digestibility and feedlot trials, 1040
Forage quality
Recent developments in predicting, 1554
Formaldehyde treatment, influence of
And energy additions on microbial metabolism of Coastal bermudagrass protein in wethers, 666
Fractions, biologically active
Isolation of, from wood hemicellulos extracts, 1129
Freezing methods, effects of
And frozen storage on chemical characteristics of ground beef patties, 1101
Frozen storage, effects of freezing methods and
On chemical characteristics of ground beef patties, 1101
Fructose
Conversion of glucose to, in the fetal pig, 585
FSH, exogenous
Effect of nutrition on response to, in beef cattle, 1182
Funding research for the future
Introductory remarks and summary for the symposium on, 1257
Political environment – OMB and congress, 1259
U.S. department of agriculture, 1262
State agricultural experiment stations, 1265
Industry, 1274
Future, funding research for the
Introductory remarks and summary for the symposium on, 1257
Political environment – OMB and congress, 1259
U.S. department of agriculture, 1262
State agricultural experiment stations, 1265
Industry, 1274

G

Gains, efficiency of
And carcass characteristics of swine of two degrees of fatness slaughtered at three weights, 1049
Gene activity, transitions in
During development of muscle fibers, 837
Genetic and environmental effects
On internal parasites, foot soundness and attrition in crossbred ewes, 1329
Genetic aspects
Of feet and legs soundness in swine, 1322
Genetic change, estimation of
In a performance testing program for sheep, 26
Genetic evaluation of beef cattle
For weaning weight, 1070
Gestation, late
Effect of, feeding of dichlorvos in nonparasitized and parasitized sows, 45
Gilts
Influence of photoperiod on growth, puberty and plasma LH levels in, 1401
Gilts, behaviorally anestrous
Effect of methallibure on estrous response of, reared in confinement, 87
Gilts, gravid and nongravid
Selenium and vitamin E in semi-purified diets for, 1357
Glucoamylase, pronase and cellulase
Application of enzymatic analysis with, to various feeds for cattle, 1483
Glucocorticoids
Relationships among luteinizing hormone, estradiol, progesterone, milk yield, body weight and postpartum ovarian activity in Holstein cows, 570
Glucose, conversion of
To fructose in the fetal pig, 585
Gonadotropin binding
Relationship of *in vitro*, to bovine testes and the onset of spermatogenesis, 591
Grain sorghum
Substitution of a protected tallow product for, in the diet of fattening steers fed for 89 or 118 days, 1057
Grain sorghum residue
Forage composition and utilization of, by beef cows, 919
Ground beef, flavor of
Effects of energy intake and feed source on chemical changes and, during frozen storages, 338
Growing and finishing beef cattle

Ammonia-mineral-suspension treated corn silage, protein levels and monensin for, 742
Growth, early
Influences of age and, on reproductive performance of yearling Hereford heifers, 1089
Growth, feed efficiency and energy metabolism of lambs
Effect of monensin on, 1065
Growth, influence of photoperiod on
Puberty and plasma LH levels in gilts, 1401
Growth, postweaning
Characterization of biological types of cattle (cycle II) II., and puberty of heifers, 500
Growth rate of thoroughbreds
Effects of age of dam, year and month of birth, and sex of foal, 480

H

Hair meals and fat
Effect of soybean, feather and, on the performance of growing-finishing beef cattle, 748
Half-life, estimation of
And metabolic clearance rate of thyrotropin-releasing hormone in sheep using a double antibody radioimmunoassay, 1165
Hampshire pigs
Response of stress-susceptible and stress-resistant, to electrical stress.
I. Physiological and biochemical effects, 446
II. Effects on blood cells and blood minerals, 453
Hay, ground
Ensiling characteristics, digestibility and feeding value of ensiled cattle waste and, with and without sodium hydroxide, 104
Hay to concentrate ratios, three
Effects of ruminal infusion of acetic acid onto, on apparent digestibilities and rumen parameters in cattle, 1491
Health factors
Nutrition and, in meat consumption, 408
Heifers, Brangus
Dietary alteration of ruminal fermentation on efficiency of growth and onset of puberty in, 488
Heifers, dairy
Effects of high concentrate feeding and fasting on plasma glucocorticoids in, 961
Heifers, prepuberal dairy
Effects of implanting, with anabolic steroids on hormonal status, puberty and parturition, 859
Hereford heifers, yearling
Influences of age and early growth on reproductive performance of, 1089
Heritabilities, estimates of
And correlations for production characters of Angus and Hereford calves, 286
Histamine, ruminal
Occurrence and disappearance of, and tyramine, 1470
Histamine, tyramine, tryptamine and electrolytes
During glucose induced lactic acidosis, 367
Hormonal status, puberty and parturition
Effects of implanting prepuberal dairy heifers with anabolic steroids on, 859
Hormone, follicle-stimulating
Effects of equimate (ICI-81008) on levels of luteinizing hormone, and progesterone during the estrous cycle of the mare, 69
Hormone, luteinizing
Effects of equimate (ICI-81008) on levels of, follicle-stimulating hormone and progesterone during the estrous cycle of the mare, 69
Relationships among, estradiol, progresterone, glucocorticoids, milk yield, body weight and postpartum ovarian activity in Holstein cows, 570
Serum progesterone and, in dairy cattle fed varying levels of crude protein, 1154
Hormone treatments
And use of calf removal in postpartum beef cows, 1285
Housing management, effect of
On reproductive development and performance of young boars, 246
Hydrogen sulfide
Effect of ration, waste composition and length of storage on the volatilization of ammonia, and odors from cattle waste, 436

I

Immunoglobulin G, A and M
And antibody response in sow-reared and artificially-reared pigs, 1116
Inbreeding effects
Selection for increased leanness of Yorkshire swine. II. Population parameters, and response to selection, 800
Index selection
Comparison of single trait and, in sheep, 776
Indexes for swine
Postweaning genetic parameters and, 1096
Ingesta, ruminal turnover rates of
Determination of rumen fill, retention time and, at different stages of lactation in dairy cows, 381
Insulin, effect of
On total protein synthesis in pig adipocytes, 853
Interpretation of Delaney clause
Scientific basis for, 986
Intrauterine threads, effect of
On fertilization rate on ewes, 1429
Iodine content of milk and meat
Factors that influence the: A review, 981

K

Kentucky 31, G1-306, G1-307 and Kenhy tall fescue
Evaluation of, as pasture for yearling steers,
I. Forage composition, 607
II. Growth, physiological response and plasma constituents of yearling steers, 618
"Kentucky-31" tall fescue, fertilized
Chemical composition of necrotic fat lesions in beef cows grazing, 673

L

Lactation in dairy cows
Determination of rumen fill, retention time and ruminal turnover rates of ingesta at different stages of, 381
Lactation length and fasting, effect of
On various reproductive phenomena of sows, 359
Lactic acid metabolism
Effect of energy level on ruminal D(-) and L(+), 624
Lactic acidosis, glucose induced
Histamine, tyramine, tryptamine and electrolytes during, 367
Lactic acidosis, subclinical
Dietary buffers and ruminal and blood parameters of, 683
Lactobacillus species fermentation product, nonviable
Effects of a, on performance of pigs, 770
Lambs
Effects of magnesium fertilization on mineral utilization and nutritional quality of alfalfa for, 1191
Lambs, energy metabolism of
Effect of monensin on growth, feed efficiency and, 1065
Lambs, growing
Cement kiln dust in complete diets for finishing steers and, 658
Lamb performance, early-weaned
Drylot vs pasture, to two slaughter weights, 32
Lambs and steers
Sodium bentonite and sodium bicarbonate in high-concentrate diets for, 764
Lambs, lignin digestibility by
Fed both low quality and high quality roughages, 941
Leanness, selection for increased
Of Yorkshire swine. II. Population parameters, inbreeding effects and response to selection, 800
Lecithin, effect of fat and
And of moisture levels of corn and corn silage on nutrient digestibility by ruminants, 900
Lignin digestibility by lambs
Fed both low quality and high quality roughages, 941
Litter size and weight, correlated response in
Selection for ovulation rate in swine, 509
Liver and muscle, development of
Maternal energy status and, in the bovine fetus, 1538
Lysine
Evaluation of added fat and, to sorghum-soybean meal diets for swine, 541

M

Macro minerals in the digestive tract of sheep
Effects of dietary calcium levels on concentration and solubility of, 954
Magnesium, effect of
And energy supplementation of blood constituents of, 1209
Magnesium fertilization, effects of
On mineral utilization and nutritional quality of alfalfa for lambs, 1191
MAP treatment
Experiences with estrus synchronization in sheep over a twelve-year period using, for ten days, 1015
Mare, the
Effects of equimate (ICI-81008) on levels of luteinizing hormone, follicle-stimulating hormone and progesterone during the estrous cycle of, 69
Mating age, effects of pregnancy and
On protein and fat deposition in polygenic obese mice, 810
Mating systems, effects of
On weaning traits in beef cattle, 7
Measurements, repeated
Combined significance on nonindependent tests for, 363
Meat competitors, red
Their impact and nutritive value, 401
Meat consumption
Nutrition and health factors in, 408
Meat industry, the future
In service to mankind: social and economic concerns, 415
Meat, milk and
Factors that influence the idodine content of: A review, 981
Mechanisms, proposed
Controlling parturition and the induction of parturition in swine, 1407
Metabolism, lactic acid
Effect of energy level on ruminal D(-) and L(+), 624
Metabolism, microbial
Influence of formaldehyde treatment and energy additions on, of Coastal bermudagrass protein in wethers, 666
Methallibure, effect of
On estrous response of behaviorally anestrous gilts reared in confinement, 87
Methionine absorption in the jejunum and ileum of sheep
Characteristics of threonine, valine and, 926
Methionine hydroxy analog, effect of
On energy utilization of a bird-resistant sorghum grain diet fed steers, 1475
Mice, immature
Aqueous porcine pineal extract: inhibition of ovulation induced with PMSG and HCG in, 1422
Mice, polygenic obese
Effects of pregnancy and mating age on protein and fat deposition in, 810
Mice skeletal muscle of
Myofibrillar protein synthesis and assembly in satellite cell cultures isolated from, 54
Mice, three-way crosses in
A comparison between terminal and rotational, 280
Microscopy, scanning electron
Structural inhibitors of big and little bluestem digestion observed by, 1457
Milk and meat
Factors that influence the iodine content of: A review, 981
Milk yield
Relationships among luteinizing hormone, estradiol, progesterone, glucocorticoids, body weight and postpartum ovarian activity in Holstein cows, 570

Milk yield of Brahman cows
In a tropical beef production system, 1
Mineral balance in steers
Ration digestibility and, fed a complete ensiled diet, 1525
Mineral utilization
Effects of magnesium fertilization on, and nutritional quality of alfalfa for lambs, 1191
Mink (Mustela vison)
The annual reproductive cycle of, 578
Mixed model
Multiple trait evaluation of related sires when all traits are recorded, 1079
Monensin
Effect of avoparcin and, on feedlot performance of beef cattle, 1338
Feeding behavior changes of cattle during introduction of, with roughage or concentrate diets, 1501
Protein source and protein levels for growing steers, 474
Supplemented winter pasture for growing feeder calves, 1295
Wheat straw-urea diets for beef steers:
Alkali treatment and supplementation with protein, and a feed intake stimulant, 1223
Monensin, effect of
On growth, feed efficiency and energy metabolism of lambs, 1065
Monensin effects on diet digestibility
Ruminal protein bypass and microbial protein synthesis, 1516
Monensin for growing-finishing beef cattle
Ammonia-mineral-suspension treated corn silage, protein levels and, 742
Muscle fiber number and diameter
An automated technique for simultaneous determinations of, 328
Muscle fibers
Transitions in gene activity during development of, 837
Muscle, skeletal
Changes in the satellite cell population in fetal pig, 1109
Myofibrillar protein synthesis and assembly in satellite cell cultures isolated from, of mice, 54

N

Net energy evaluation of barley diets
For cattle in cold environments, 1447
News and Notes, 234, 420, 715, 993, 1278, 1562
Nickel for ruminants. II.
Influence of dietary nickel on performance and metabolic parameters, 649
Nickel, dietary
Nickel for ruminants. II. Influence of, on performance and metabolic parameters, 649
Nitrogen distribution in corn silage
Treated with varying levels of ammonia, 1509
Nitrogen fertilization
Cow-calf production on tall fescue-ladino clover pastures with and without, or creep feeding: spring calves, 13
Nitrogen, nonprotein
Feeding value of rations containing, or natural protein and of ammoniated straw for beef cattle, 38
Nitrogen supplements for Holstein steers
Dehydrated poultry excreta *vs* cottonseed mean as, 633
Nitrogen utilization by steers
Effect of ruminal ammonia concentration on, 906
Nutrient digestibility by ruminants
Effect of fat and lecithin and of moisture levels of corn and corn silage on, 900
Nutrients, balancing of
Electromagnetic blood flow recording and, in the udder of lactating cows, 1143
Nutrition and health factors
In meat consumption, 408
Nutrition and management of early weaned piglets
Liquid *vs* dry feeding, 1007
Nutrition, effect of
On response to exogenous FSH in beef cattle, 1182
Nutritive value, their impact and
Red meat competitors, 401

O

Oats, high-protein
Effects of, in diets for young weaned pigs, 1374
Oocytes, bovine follicular
Characterization of, and their ability to mature *in vitro*, 76
Ovarian activity, postpartum
Relationship among luteinizing hormone, estradiol, progesterone, glucocorticoids, milk yield, body weight and, in Holstein cows, 570
Ovulation, inhibition of
Aqueous porcine pineal extracts, induced with PMSG and HCG in immature mice, 1422
Ovulation rate in swine, selection for
Correlated response in litter size and weight, 509
Oxytetracycline
Absorption and excretion in wethers, 1464

P

Palpation, rectal-abdominal
Rectal damage in ewes following pregnancy diagnosis by, 348
Parameters, metabolic
Nickel for ruminants. II. Influence of dietary nickel on performance and, 649
Parameters, postweaning genetic
And indexes for swine, 1096
Parameters, ruminal and blood
Dietary buffers and, of subclinical lactic acidosis in steers, 683
Parasites, internal
Genetic and environmental effects on, foot soundness and attrition in crossbred ewes, 1329
Particulate marker (samarium, lanthanum and cerium) movement
Extent of, from one digesta particle to another, 375

Parturition
Effects of implanting prepuberal dairy heifers with anabolic steroids on hormonal status, puberty and, 859
Proposed mechanisms controlling, and the induction of, in swine, 1407
Pasture
Drylot *vs* pasture: Early-weaned lamb performance to two slaughter weights, 32
Pasture for yearling steers
Evaluation of Kentucky 31, G1-306, G1-307 and Kenhy tall tescue as,
I. Forage composition, 607
II. Growth, physiological response, and plasma constituents of yearling steers, 618
Pastures, high or low quality
Forage intake and performance of lactating beef cows grazing, 692
Pastures, tall fescue-ladino clover,
Cow-calf production on, with and without nitrogen fertilization or creep feeding, 13
Patties, ground beef
Effects of freezing methods and frozen storage on chemical characteristics of, 1101
Performance of lactating beef cows
Forage intake and, grazing high or low quality pastures, 692
Performance, reproductive
Influences of age and early growth on, of yearling Hereford heifers, 1089
Of two- and three-year-old bulls assigned twenty-five or forty cows during the breeding period, 1020
Performance testing program
Estimation of genetic change in a, for sheep, 26
pH, effect of
On maximum bacterial growth rate and its possible role as a determinant of bacterial competition in the rumen, 251
Photoperiod, influence of
On growth, puberty and plasma LH levels in gilts, 1401
Photoinduction of puberty in boars
During naturally occurring short day lengths, 1159
Pig adipocytes
Effect of insulin on total protein synthesis in, 853
Pig, fetal
Changes in the satellite cell population in, skeletal muscle, 1109
Pig, the fetal
Conversion of glucose to fructose in, 585
Pig, the live
Evaluation of an electronic technique for measuring lean content of, 536
Piglets, early weaned
Nutrition and management of: liquid *vs* dry feeding, 1007
Pigs
Evaluation of rearing systems and feed flavors for, weaned at two to three weeks of age, 999
Pigs, growing
Whole soybeans fermented with *Aspergillus oryzae* and *Rhizopus oligosporus* for, 63
Pigs, Hampshire
Response of stress-susceptible and stress-resistant, to electrical stress.
I. Physiological and biochemical effects, 446
II. Effects on blood cells and blood minerals, 453
Pigs, performance of
Effects of a non-viable *Lactobacillus* species fermentation product on, 770
On diets containing heated or unheated corn with or without aflatoxin, 1394
Pigs, sow-reared and artificially-reared
Immunoglobulin G, A and M and antibody response in, 1116
Pigs, young weaned
Effect of high-protein oats in diets for, 1374
Placement, 236, 422, 718, 995, 1281, 1564
Plasma glucocorticoids in dairy heifers
Effects of high concentrate feeding and fasting on, 961
Plasma LH levels in gilts
Influence of photoperiod on growth, puberty and, 1401
Plasma lipids
In neonatal and growing swine, 554
PMSG and HCG
Aqueous porcine pineal extract: inhibition of ovulation induced with, in immature mice, 1422
PMSG and HCG in immature mice
Aqueous porcine pineal extract: inhibition of ovulation induced with, 1422
PMSG, endocrine response of the cow to
And subsequent multiple corpora lutea regression by prostaglandin $F_{2\alpha}$, 1135
Ponies, young
Effect of vitamin D and sunlight on growth and bone development of, 882
Pony
Utilization of a corn oil supplemented diet by the, 1379
Population parameters
Selection for increased leanness of Yorkshire swine. II. Inbreeding effects and response to selection, 800
Porcine pineal extract, aqueous
Inhibition of ovulation induced with PMSG and HCG in immature mice, 1422
Porcine prolactin in blood serum
Relationships between concentrations of, and milk of lactating sows, 876
Pork, induced pale, soft and exudative
Effects of prednisolone or epinephrine treatment on development of, 531
Prednisolone, effects of
Or epinephrine treatment on development of induced pale, soft and exudative pork, 531
Pregnancy and mating age, effects of
On protein and fat deposition in polygenic obese mice, 810
Pregnancy diagnosis
Rectal damage in ewes following, by rectal-abdominal palpation, 348
Pregnancy rate, factors affecting
Of Angus, Zebu and Zebu-cross cattle, 1312
Production characters of Angus and Hereford calves
Estimates of heritabilities and correlations for, 286
Production traits
And visual scores of tested boars, 723
Progesterone
Effects of equimate (ICI-81008) on levels of luteinizing hormone, follicle-stimulating hor-

mone and, during the estrous cycle of the mare, 69
Relationships among luteinizing hormone, estradiol, progresterone, glucocorticoids, milk yield, body weight and postpartum ovarian activity in Holstein cows, 570
Prostaglandin F_2
Effects of continuous intrauterine administration of, on life-span of corpora lutea of nonpregnant ewes, 1441
Prostaglandin $F_{2\alpha}$
Endocrine response of the cow to PMSG and subsequent multiple corpora lutea regression by, 1135
Protein
Wheat straw-urea diets for beef steers: Alkali treatment and supplementation with, monensin and a feed intake stimulant, 1223
Protein and fat deposition
Effects of pregnancy and mating age on, in polygenic obese mice, 810
Protein blocks containing urea
The use of, for minimally managed broodmares, 459
Protein bypass, ruminal
Monensin effects on diet digestibility, and microbial protein synthesis, 1516
Protein, crude
Serum progesterone and luteinizing hormone in dairy cattle fed varying levels of, 1154
Protein levels and monensin
Ammonia-mineral-suspension treated corn silage, for growing and finishing beef cattle, 742
Protein, natural
Feeding value of rations containing nonprotein or, and of ammoniated straw for beef cattle, 38
Protein restriction, effcts of dietary
On porcine uterine protein secretions, 1434
Protein secretions, porcine uterine
Effects of dietary protein restriction on, 1434
Protein source and levels
Monensin, for growing steers, 474
Protein source for swine, a
LCP cottonseed flour as, 1216
Protein, supplemental
Crambe meal as a source of, for growing-finishing beef cattle, 758
Protein supplementation
Comparison of four levels of, with and without oral DES on reproductive traits and testosterone of bulls, 1033
Protein supplementation, comparison of four levels of
With and without oral diethylstilbestrol on daily gain, feed conversion and carcass traits of bulls, 1026
Protein synthesis, microbial
Monensin effects on diet digestibility, ruminal protein bypass and, 1516
Protein synthesis, myofibrillar
And assembly in satellite cell cultures isolated from skeletal muscle of mice, 54
Protein synthesis, total
Effect of insulin on, in pig adipocytes, 853
Puberty
Effects of implanting prepuberal dairy heifers with anabolic steroids on hormonal status, and parturition, 859
Influence of photoperiod on growth, and plasma LH levels in gilts, 1401
Puberty in boards, photoinduction of
During naturally occurring short day lengths, 1159
Puberty of heifers, postweaning growth and
Characterization of biological types of cattle (cycle II) II., 500

Q

Quackgrass, effect of tall fescue and
On copper metabolism and weight gains of beef cattle, 893

R

Radioimmunoassay, a double antibody
Estimation of half-life and metabolic clearance rate of thyrotropin-releasing hormone in sheep using, 1165
Rambouillet breeding
Effects of substituting Finnsheep and Dorset breeding for,
I. Productivity of young, spring-lambing ewes, 256
II. Productivity of fall-lambing ewes, 265
Rations containing nonprotein nitrogen
Feeding value of, or natural protein and of ammoniated straw for beef cattle, 38
Realimentation of cull range cows
1. Effect of final body condition and dietary energy level on rate, efficiency and composition of gains, 913
2. Changes in carcass traits, 823
3. Prediction of carcass composition, 831
Rearing systems, evaluation of
And feed flavors for pigs weaned at two to three weeks of age, 999
Rectal damage in ewes
Following pregnancy diagnosis by rectal-abdominal palpation, 348
Reproduction in swine
Tryptophan requirement for, 559
Reproductive capacity of beef bulls VI.
Daily spermatozoal production, spermatozoal reserves and dimensions and weight of reproductive organs, 351
Reproductive cycle, the annual
Of mink (mustela vison), 578
Reproductive development and performance of young boars
Effect of housing management on, 246
Reproductive organs, dimensions and weight of
Reproductive capacity of beef bulls. VI.
Daily spermatozoal production, spermatozoal reserves and, 351
Reproductive phenomena of sows
Effect of lactation length and fasting on various, 359
Research for the future, funding
Introductory remarks and summary for the symposium on, 1257
Political environment – OMB and congress, 1259
U.S. department of agriculture, 1262
State agricultural experiment stations, 1265
Industry, 1274

Rhizopus oligosporus
Whole soybeans fermented with *Aspergillus oryzae* and, for growing pigs, 63
Rice straw, ammonia-treated
Response of ruminants to diets containing sodium hydroxide or, 92
Roughage or concentrate diets
Feeding behavior changes of cattle during introduction of monensin with, 1501
Roughages, low quality and high quality
Lignin digestibility by lambs fed both, 941
Rumen, bacterial competition in the
Effect of pH on maximum bacterial growth rate and its possible role as a determinant of, 251
Rumen bacterial endotoxin
Chemical characteristics of, 1250
Rumen fill, determination of
Retention time and ruminal turnover rates of ingesta at different stages of lactation in dairy cows, 381
Rumen insufflation, effect of
On ruminal contraction rate in sheep, 934
Rumen microbial population
Movement of ingesta from the rumen, and water intake of steers fed apple pomace diets, 1202
Rumen microorganisms
A colorimetric method for the determination of proteolytic degradation of feed proteins by, 947
Microscopic evaluation of forage digestion by, A review, 701
Ruminal ammonia concentration, effect of
On nitrogen utilization by steers, 906
Ruminal contraction rate in sheep
Effect of rumen insufflation on, 934
Ruminants
Response of ruminants to diets containing sodium hydroxide or ammonia-treated rice straw, 92
Ruminants, fat in
Deposition, secretion, transport and oxidation of, 1530
Ruminants, high grain diets for
Effects of adding sodium bentonite to, 641
Ruminants, nutrient digestibility by
Effect of fat and lecithin and of moisture levels of corn and corn silage on, 900

S

Satellite cell cultures
Myofibrillar protein synthesis and assembly in, isolated from skeletal muscle of mice, 54
Satellite cell population, changes in the
In fetal pig skeletal muscle, 1109
Season and breed effects
Age, on testicular volume and semen traits in young beef bulls, 1299
Selection, response to
Selection for increased leanness of Yorkshire swine, 789
II. Population parameters, inbreeding effects and, 800
Selenium and vitamin E
In semi-purified diets for gravid and nongravid gilts, 1357
Semen traits in young beef bulls
Age, season and breed effects on testicular volume and, 1299
Sensory characteristics, relationship to
Fatty acid composition of bovine lipids as influenced by diet, sex and anatomical location and, 1343
Serum progesterone and luteinizing hormone
In dairy cattle fed varying levels of crude protein, 1154
Sewage sludge, metropolitan Denver
Fed to feedlot steers, 735
Sheep
Comparison of single trait and index selection in, 776
Estimation of genetic change in a performance testing program for, 26
Estimation of half-life and metabolic clearance rate of thyrotropin-releasing hormone in, using a double antibody radioimmunoassay, 1165
Intake, digestibility and nutrient utilization by, of sodium hydroxide-treated tropical grass supplemented with soybean or urea, 1172
Sheep, estrus synchronization in
Experiences with, over a twelve-year period using oral MAP treatment for ten days, 1015
Sheep, Finnish Landrace and Targhee
An embryo transfer study of birth weight in, 298
Sheep, ruminal contraction rate in
Effect of rumen insufflation on, 934
Sheep, taste response of
Effects of diet and feeding level on, and calves to sucrose solutions, 1177
Sheep, the digestive tract of
Effects of dietary calcium levels on concentration and solubility of macro-minerals in the, 954
Sheep, the jejunum and ileum of
Characteristics of threonine, valine and methionine absorption in the, 926
Single trait and index selection
Comparison of, in sheep, 776
Sire by environment interactions
In beef cattle field data, 307
Sires
Ranking, for calving ease, 293
Sires, evaluation of releated
Mixed model, multiple trait, when all traits are recorded, 1079
Size as a component of beef production efficiency:
Feedlot production and integrated efficiency, 966
Cow-calf production, 974
Social and economic concerns
The future meat industry in service to mankind, 415
Sodium bentonite and sodium bicarbonate
In high-concentrate diets for lambs and steers, 764
Sodium bentonite, effects of adding
To high grain diets for ruminants, 641
Sodium bicarbonate in high-concentrate diets
Sodium bentonite and, for lambs and steers, 764
Sodium hydroxide
Ensiling characteristics, digestibility and feeding value of ensiled cattle waste and ground hay with and without, 104

Response of ruminants to diets containing, or ammonia-treated rice straw, 92
Sodium hydroxide-treated tropical grass
Intake, digestibility and nutrient utilization by sheep of, supplemented with soybean or urea, 1172
Sorghum grain diet, a bird-resistant
Effect of methionine hydroxy analog on energy utilization of, fed steers, 1475
Sorghum-soybean meal diets for swine
Evaluation of added fat and lysine to, 541
Sows, milk of lactating
Relationships between concentrations of porcine prolactin in blood serum and, 876
Sows, nonparasitized and parasitized
Effect of late gestation feeding of dichlorvos in, 45
Sows, reproductive phenomena of
Effect of lactation length and fasting on various, 359
Soybean
Intake, digestibility and nutrient utilization by sheep of sodium hydroxide-treated tropical grass supplemented with, or urea, 1172
Soybean, feather and hair meals, effect of
On the performance of growing-finishing beef cattle, 748
Soybeans, whole
Fermented with *Aspergillus oryzae* and *Rhizopus oligosporus* for growing pigs, 63
Spermatogenesis, the onset of
Relationship of *in vitro* gonadotropin binding to bovine testes and the onset of, 591
Spermatozoal production, daily
Reproductive capacity of beef bulls: VI. Spermatozoal reserves and dimensions and weight of reproductive organs, 351
Steers
Dietary buffers and ruminal and blood parameters of subclinical lactic acidosis in, 683
Effect of anhydrous ammonia treatment on the intake and digestibility of cereal straw by steers, 1239
Effect of methionine hydroxy analog on energy utilization of a bird-resistant sorghum grain diet fed steers, 1475
Ration digestibility and mineral balance in, fed a complete ensiled diet, 1525
Steers, Angus and Charolais X Angus
Production and carcass characteristics of, 239
Steers, carcass traits of
Crossing Angus and milking Shorthorn cattle, 517
Steers, diet of fattening
Substitution of a protected tallow product for grain sorghum in the, fed for 89 or 118 days, 1057
Steers fed apple pomace diets
Rumen microbial population, movement of ingesta from the rumen, and water intake of, 1202
Steers, feedlot
Metropolitan Denver sewage sludge fed to, 735
Steers, feedlot performance of
Crossing Angus and milking Shorthorn cattle, 313
Steers, finishing
Cement kiln dust in complete diets for, and growing lambs, 658
Steers, growing
Monensin, protein source and protein levels for, 474
Steers, Holstein
Dehydrated poultry excreta *vs* cottonseed meal as nitrogen supplements for, 633
Steers, lambs and
Sodium bentonite and sodium bicarbonate in high-concentrate diets for, 764
Steers, nitrogen utilization by
Effect of ruminal ammonia concentration on, 906
Steers, yearling
Evaluation of Kentucky 31, G1-306, G1-307 and Kenhy tall fescue as pasture for,.
I. Forage composition, 607
II. Growth, physiological response and plasma constituents of, 618
Straw, ammoniated
Feeding value of rations containing nonprotein nitrogen or natural protein and of, for beef cattle, 38
Streptococcus bovis
Sensitivity of, to various antibiotics, 468
Stress, electrical
Response of stress-susceptible and stress-resistant Hampshire pigs to, I. Physiological and biochemical effects, 446
II. Effects on blood cells and blood minerals, 453
Students on campus
My successes and failures in teaching, 711
Sucrose solutions
Effects of diet and feeding level on taste responses of sheep and calves to, 1177
Sunlight, vitamin D and
Effect of, on growth and development of young ponies, 882
Swine
Effect of dietary zinc and copper on performance and tissue mineral and cholesterol concentrations in, 1123
Genetic aspects of feet and legs soundness in, 1322
Proposed mechanisms controlling parturition and the induction of parturition in, 1407
Swine, a protein source for
LCP cottonseed flour as a, 1216
Swine, carcass characteristics of
Efficiency of gains and, of two degrees of fatness slaughtered at three weights, 1049
Swine, diets for
Evaluation of added fat and lysine to sorghum-soybean meal, 541
Swine, gravid
Value of high fiber diets for, 1385
Swine, indexes for
Postweaning genetic parameters and, 1096
Swine, neonatal and growing
Plasma lipids in, 554
Swine of two degrees of fatness
Efficiency of gains and carcass characteristics of, slaughtered at three weights, 1049
Swine, ovulation rate in
Selection,: Correlated response in litter size and weight, 509
Swine, reproduction in
Tryptophan requirement for, 559
Swine starter and grower diets
Nutritional evaluation of triticale in, 547

Swine, three breeds of
Intestinal disaccharidase activities of, 1349
Swine waste composition, fresh
Effect of dietary arsonic acids on and anaerobic decomposition, 1305
Swine, Yorkshire
Selection for increased leanness of,. II. Population parameters, inbreeding effects and response to selection, 800
Swine, young
Choline requirement of, 1366

T

Tallow product, a protected
Substitution of, for grain sorghum in the diet of fattening steers fed for 80 or 118 days, 1057
Teaching students
My successes and failures in, on campus, 711
Technique, an automated
For simultaneous determinations of muscle fiber number and diameter, 328
Technique, electronic
Evaluation of an, for measuring lean content of the live pig, 536
Terminal and rotational three-way crosses
A comparison between, in mice, 280
Testes, bovine
Relationship of *in vitro* gonadotropin binding to, and the onset of spermatogenesis, 591
Testicular volume and semen traits
Age, season and breed effects on, in young beef bulls, 1299
Tests, nonindependent
Combined significance of, for repeated measurements, 363
Threonine, characteristics of
Valine and methionine absorption in the jejunum and ileum of sheep, 926
Thyrotropin-releasing hormone
Estimation of half-life and metabolic clearance rate of, in sheep using a double antibody radioimmunoassay, 1165
Tissue development, perirectal adipose
Of postweaned rapidly growing bull calves, 525
Tissue mineral
Effect of dietary zinc and copper on performance and, and cholesterol concentrations in swine, 1123
Trace minerals, starch and straw, addition of
To apple pomace-urea diets for gestating beef cows, 495
Trait evaluation, multiple
Mixed model, of related sires when all traits are recorded, 1079
Traits, birth and weaning
Characterization of biological types of cattle – cycle III:, 271
Transitions in gene activity
During development of muscle fibers, 837
Transportation and handling of calves
Effect of, upon blood serum composition, 430
Triticale, nutrition evaluation of
In swine starter and grower diets, 547
Tropical grass, sodium hydroxide-treated
Intake, digestibility and nutrient utilization by sheep of, supplemented with soybean or urea, 1172
Tryptophan requirement
For reproduction in swine, 559
Tyramine, ruminal histamine and
Occurrence and disappearance of, 1470

U

Urea dilution technique
Estimation of bovine carcass composition by the, 319
Urea
Intake, digestibility and nutrient utilization by sheep of sodium hydroxide-treated tropical grass supplemented with soybean, or, 1172
Urea, protein blocks containing
The use of, for minimally managed broodmares, 459
Urea supplements, "slow release"
In vitro and *in vivo* ammonia release from, 887

V

Valine, characteristics of threonine
And methionine absorption in the jejunum and ileum of sheep, 926
Visual scores of tested boars
Production traits and, 723
Vitamin D and sunlight
Effect of, on growth and bone development of young ponies, 882
Vitamin E
Selenium and, in semi-purified diets for gravid and nongravid gilts, 1357

W

Waste, cattle
Effect of ration, waste composition and length of storage on the volatilization of ammonia, hydrogen sulfide and odors from, 436
Water intake of steers fed apple pomace diets
Rumen microbial population, movement of ingesta from the rumen, and, 1202
Weaning traits in beef cattle
Effects of mating systems on, 7
Weight gains of beef cattle
Effect of tall fescue and quackgrass on copper metabolism and, 893
Weight, weaning
Genetic evaluation of beef cattle for, 1070
Weights, slaughter
Drylot *vs* pasture: Early-weaned lamb performance to two, 32
Wethers
Influence of formaldehyde treatment and energy additions on microbial metabolism of Coastal bermudagrass protein in, 666
Oxytetracycline absorption and excretion in, 1464

Winter pasture
Monensin supplemented, for growing feeder calves, 1295
Wood hemicellulose extracts
Isolation of biologically active fractions from, 1129

Z

Zebu and Zebu-cross cattle, Angus
Factors affecting pregnancy rate of, 1312
Zinc diet, a low
Effect of, on the ewe during pregnancy and lactation, 1234

SUBJECT INDEX
FOR VOLUME 49, 1979

A

Acids, fecal bile
  Effect of wheat middlings on fiber digestibility, serum cholesterol and glucose and, in pigs, 528
Adaptation to corn and wheat diets
  Adaptation to high concentrate diets by beef cattle. I, 775
Aflatoxins, effects of
  On finishing swine, 1006
AI, time to complete
  Effect of clitoral stimulation and length of, on pregnancy rates in beef cattle, 647
Alfalfa, preservation of
  Effect of covering and dry matter at ensiling on, in bunker silos, 298
Akali treatment, effect of
  On intake and digestion of barley straw by beef steers, 169
American Society of Animal Science
  Proceedings of the 71st annual meeting of the, 1660
American Society of Animal Science
  Honorary awards committees, 1669
Amicloral
  Effect of monensin or lasalocid, with or without niacin on, on rumen fermentation and feed efficiency, 1066
Amino acids, free
  In blood of ruminants—physiological and nutritional regulation, 1577
Amino acid pattern and level
  Effect of, in intravenously and intraruminally infused sheep, 752
Amino acids, blood plasma
  Performance, ruminal measurements and, of steers fed ronnel, 1059
Ammonium hydroxide treatment
  Of wheat straw, 802
Anaerobic decomposition
  Effect of copper in swine diets on fresh waste composition and, 20
Animal agriculture
  Potential impact of dietary goals on, 1117
Animal breeding
  The use of systems analysis in animal science with emphasis on, 817
Animal phantoms, utilization of
  To increase the accuracy of ^{40}K whole-body counting, 1458
Animal science
  The use of systems analysis in, with emphasis on animal breeding, 817
Annual business meeting
  Minutes of the 71st, 1660
Ash, Acid insoluble
  And permanganate lignin as indicators to determine digestibility of cattle rations, 1112
Amino acid deamination
  Chemical inhibition of, by ruminal microbes *in vitro*, 1101
Award, distinguished service
  Northeastern section, ASAS, 1135
Award, younger scientist
  Midwestern section, ASAS, 1136
Awards
  ASAS honorary, 1681
  Outstanding senior, 1686

B

Barley, energy of wheat and
  Utilization of, by young swine, 1470
Barley straw, intake and digestion of
  Effect of alkali treatment on, by beef steers, 169
Beef and chicken
  Effect of frozen storage time, cooking and holding temperature upon extractable lipids and TBA values of, 701
Beef bulls, yearling
  Influence of prostaglandin $F_2\alpha$ on spermatogenesis, spermatozoal output, seminal quality, testosterone levels and libido of, 720
Beef cattle
  Adaptation to corn and wheat diets, 775
  Adaptation to high concentrate diets by, II. Effect of ruminal pH alteration on rumen fermentation and voluntary intake of wheat diets, 785

Effect of clitoral stimulation and length of time to complete AI on pregnancy rates in, 647
Pinkeye (Bovine infectious keratoconjunctivitis) in, 361
Beef cattle, the estrous cycle of
Follicular development during four stages of, 1261
Beef cow rations
Wheat straw and sodium hydroxide treatment in sodium, 354
Beef cows
Endocrine and reproductive response of, to PMSG, 1033
Gastrointestinal parasites, 306
Beef, forage-fed
Increasing the tenderness of, 1207
Beef production
From mature cows on range forage, 654
Beef production, simulated efficiency of
For a midwestern cow-calf-feedlot management system. I. Milk production. II. Mature body size. III. Crossbreeding systems.
Beef sire evaluation programs
Evaluation and direction of, 592
Beef steaks, tenderness variations among
From carcasses of the same USDA quality grade, 103
Beef steers
Effect of alkali treatment on intake and digestion of barley straw by, 169
Beef steers fed complete diets
Influence of cement kiln dust on reticulorumen parameters of, 1364
Beef steers fed low-quality roughages
Digestibility, rate of digestion and ruminoreticulum parameters of, 1357
Behavior
Effects of concentrate level, protein source and growth promotant: and behavior-performance relationships, 833
Betaine
Metabolism of, in the ruminant, 764
Blood acid-base status of lambs
Effect of dietary lactic acid on rumen lactate metabolism and, switched from low to high concentrate diets, 1569
Blood flow, patterns of
To the uterus and ovaries of ewes during the period of luteal regression, 1510
Blood glucose, associated
Feed intake patterns and, free fatty acid and insulin changes in ponies, 838
Boars, reproductive characteristics of
During and after exposure to increased ambient temperature, 1501
Body size, II. mature
Simulated efficiency of beef production for a midwestern cow-calf-feedlot management system, 83
Bone
Toxic and essential elements—A review, 482
Bone, horse metacarpal
Age, ash content, cortical area and failure stress interrelationships, 979
Bovine adipose tissue, *in vitro* lipogenesis in
Lactate, pyruvate and acetate interactions during, 1410
Bovine coccidia, sporulation of
Prevention of, by the ensiling of a manure-blended diet, 1331
Bovine spermatozoa, straws of
Effect of freezing large numbers of, in an automatic freezer on post-thaw motility and acrosomal retention, 1190
Braham cows
Repeatability of calving intervals in, 374
Braham-derivative sires
Preweaning, feedlot and carcass characteristics of calves sired by Continental, Brahman and, in subtropical Florida, 900
Breed and heterosis effects
On carcass characteristics of angus, Brahman, Charolais and crossbred steers, 391
Breed of sire
Growth and endocrine responses of lambs to zeranol implants: Effects of preimplant growth rate and, 291
Breeding season, length of
For eight breed groups of sheep in Wisconsin, 939
Brewers dried grains protein
Ruminal bypass of, 192
Bulls given prostaglandin E_2 or $F_2\alpha$
Serum glucocorticoids, growth hormone and insulin and plasma glucose, 1517
Bulls, I. Measures of size, condition and growth in
Characterization of cattle of a five breed diallel: 418
Bulls, sexual development in
Serum hormone patterns associated with growth and, 1012
Bulls, young
Comparison of four levels of protein supplementation with and without oral diethylstilbestrol on blood plasma concentrations of testosterone, growth hormone and insulin in, 1489

B-Vitamin supplementation, posttransit
Influence of pretransit feeding regimen and, on stressed feeder steers, 310
Bypass, ruminal
Of brewers dried grains protein, 192
By-products, various liquid
As a protein supplement to ruminant diets, 1431

C

Calves
Endotoxin shock in, from intravenous injection of rumen bacterial endotoxin, 567
Calves, feeder
Effects of method and time of castration of, 5
Calves, Simental-sired
Sire by environment interactions in, 964
Calves sired by Continental, Brahman and Brahman-derivative sires
Preweaning, feedlot and carcass characteristics of, in subtropical Florida, 900
Calves, preweaning, feedlot and carcass characteristics of
Sired by Continental, Brahman and Brahman-derivative sires in subtropical Florida, 900
Calves, three-breed cross
Productivity of two-year-old crossbred cows producing, 1195
Calving intervals, repeatability of
in Brahman cows, 374
Carbohydrate and roughage source
Effect of readily available, on performance of lambs and steers fed a liquid supplement, 1552
Carboxylin, cement kiln dust and
As feed additives for swine, 908
Carcass characteristics
Breed and heterosis effects on,
Angus, Brahman, Charolais and crossbreed steers, 391
Carcass characteristics of growing swine
Effect of environmental temperature and dietary lysine source and level on the performance and, 1242
Carcass characteristics of growing and finishing swine
Effect of environmental temperature and dietary fat supplementation on the performance and, 1478
Carcass characteristics of lambs
Effect of dietary monensin on coccidial oocyst numbers, feedlot performance and, 10
Carcass, chemical composition of the
Piglet and pork production from gilts bred at puberty; and assessment of meat quality, 330
Carcass composition, quality and palatability, III.
Characterization of biological types of cattle—cycle II:, 448
Carcass evaluation
Of two- and three-way crosses of six breeds of sheep, 1151
Carcass traits
Effects of concentrate level, protein source and growth promotant: growth and, 613
Carcasses
Tenderness variations among beef steaks from, of the same USDA quality grade, 103
Carcasses electrically stimulated
Palatability of goat meat from, at four different stanges during slaughter-dressing sequence, 972
Castration of feeder calves
Effects of method and time on, 5
Cat, taurine deficiency in the
Biochemical lesions associated with, 1227
Cattle
Evaluation of protective agents applied to soybean meal and fed to,
I. Laboratory measurements, 1337
II. Feedlot trials, 1346
Induction of paturition in, with long and short acting corticoids and estradiol benzoate, 560
Induction of twins in, with bilateral and unilateral embryo transfer, 1037
Intracranial injections of 5-HT and dp cAMP and feeding in sheep and, 1076
Cattle, beef
Effect of clitoral stimulation and length of time to complete AI on pregnancy rates in, 647
Follicular development during four stages of the estrous cycle of, 1261
Cattle, biological types of
Characterization of, — Cycle III: II. Growth rate and puberty in females, 448
Characterization of, — Cycle II: III. Carcass composition, quality and palatability, 461

Cattle, characterization of
Of a five breed diallel: I. Measures of size, condition and growth in bulls, 418 II. Measures of size, condition and growth in heifers, 432
Cattle cycle, the US
Projections of, in the 80's, 629
Cattle, dairy
An analysis of the buffer system in the rumen of, 1536
Cattle, feedlot
Effect of feeding organic acid treated hen excreta upon performance, carcass merit and health of, 1183
Cattle, Hereford
I. Effects of separation interval on weigh-suckle-weigh milk production estimates, 1438
II. Physical measurements: repeatibilities and relationships with milk production, 1443
Genotype by environment
Interactions in: I. Reproductive traits, 396. II. Birth and weaning traits, 403
Heterosis among closed lines of
I. Preweaning growth and survival, 950
II. Postweaning growth and puberty in heifers, 958
Cattle rations
Acid insoluble ash and permanganate lignin as indicators to determine digestibility of, 1112
Cattle, urea fed
Nitrogen (^{15}N) utilization and microbial protein synthesis in the rumen of, 1306
Cell proliferation, myogenic
Cellular aspects of muscle growth: 115
Cell wall, potentially digestible
Rate and extent of digestion and, of waste papers, 887
Cement kiln dust
In finishing lamb diets, 637
Cement film dust, influence of
On reticulorumen parameters of beef steers fed complete diets, 1364
Chemical inhibition of amino acid deamination
By ruminal microbes *In vitro*, 1101
Cement kiln dust and carboxylin
As feed additives for swine, 908
Characteristics of boars, reproductive
During and after exposure to increased ambient temperature, 1501
Chick
Availability of phosphorus in corn, wheat and barley for the, 992
Chicken, beef and
Effect of frozen storage time, cooking and holding temperature upon extractable lipids and TBA values of, 701
Choline-methionine interactions in
Young swine, 736
Choline-methionine interrelationship
In feline nutrition, 522
Citrus pulp, dried
Accepatbility and digestibility of, by horses, 983
Clitoral stimulation, effect of
And length of time to complete AI on pregnancy rates in beef cattle, 647
Clover, white sweet
Tissue retention of Se in growing pigs fed fly ash or, grown on fly ash, 535
Coccidial oocyst numbers
Effect of dietary monensin on, feedlot performance and carcass characteristics of lambs, 10
Committees
American Society of Animal Science, 1688
Committee reports, 1690
Composition, nutrient
And contaminants of solid cellulosic waste, 1281
Compounds, selected
Monitoring the effects of, on feeding behavior of sheep, 1120
Concentrate level, effects of
Protein source and growth promotant: growth and carcass traits, 613
Protein source and growth promotant: Behavior and behavior-performance relationships, 833
Continental, Brahman and Brahman-derivative sires
Preweaning, feedlot and carcass characteristics of calves sired by, in subtropical Florida, 900
Corn and wheat diets
Adaptation to high concentrate diets by beef cattle. I. Adaptation to, 775
Copper in swine diets, effect of
On fresh waste composition and anaerobic decomposition, 20
Copper sulfate, effects of
And ferrous sulfide on performance and liver copper and iron stores of pigs, 507
Corn particle size
And site and extent of digestion by steers, 204

Corn silage, effect of
And turkey litter on the performance of gestating pony mares and weanlings, 651
Corn stalklage
Effect of harvest date and chemical treatment on the feeding value of, 1312
Corn starch, cecal administration of
Effect of, on nitrogen metabolism in ponies, 988
Corn, wheat and barley
Availability of phosphorus in, for the chick, 992
Corticoids, long and short acting
Induction of paturition in cattle with, and estradiol benzoate, 560
Cottonseed meal
Effect of lysine, crude fiber and free gossypol in, on the performance of growing pigs, 134
Cows, beef
Gastrointestinal parasites, 306
Cows, Brahman
Repeatability of calving intervals in, 374
Cow and calf performance
On tall fescue-or Kentucky bluegrass- ladino clover forages, 44
Cow-calf-feedlot management system
Simulated efficiency of beef production for a midwestern. I. Milk production, 70. II. Mature body size, 83. III. Crossbreeding systems, 92
Cow productivity traits
Secondary selection differentials for, associated with seven criteria of selecting replacement beef heifers, 26
Cows, crossbred
Productivity of two-year old, producing three-breed cross calves, 1195
Cows, mature
Beef production from, on range forage, 654
Cows, productivity in Hereford and Angus
Multivariate evaluation of phenotypic relationships between early performance and subsequent, 378
Creatine phosphokinase isoenzymes
In stress-susceptible and stress-resistant pigs, 1464
Criteria of selecting replacement, seven
Secondary selection differentials for cow productivity traits associated with, beef heifers, 26
Crossbreeding systems, III.
Simulated efficiency of beef production for a midwestern cow-calf-feedlot management system, 92
Crosses, two- and three-way
Carcass evaluation of, of six breeds of sheep, 1151
Crude fiber, effect of lysine
And free gossypol in cottonseed meal on the performance of growing pigs, 134

D

Dairy cows, lactating
Summer fescue toxicosis in, and sheep fed experimental strains of ryegrass-tall fescue hybrids, 641
Dam interaction, sire by breed of
For weaning weight in Limousin sire evaluation, 63
Dams, Panama
Performance and carcass characteristics of Suffolk sired lambs from Panama and Finn X, 55
Daylengths, short
Increased lamb production with rams exposed to, during the nonbreeding season, 927
Decking of pigs, double and triple
To increase nursery capacity, 39
DES or Synovex-S
Performance of feedlot steers reimplanted with, 324
Diallel, a five breed
Characterization of cattle of: I.
Measures of size, condition and growth in bulls, 418
II. Measures of size, condition and growth in Heifers, 432
Diet composition, influence of
And pharmacological treatment on *longissimus* muscle quality and metabolism in swine, 675
Diet, manure-blended
Prevention of sporulation of bovine coccidia by the ensiling of a, 1331
Diet, urea in the
Effect of increased levels of, on ruminal protozoal counts in four ruminant species, 1300
Dietary goals, potential impact of
On animal agriculture, 1117
Diethylstilbestrol, oral
Comparison of four levels of protein supplementation with and without, on blood plasma concentrations of testosterone, growth hormone and insulin in young bulls, 1489

Diets, corn-corn silage
Effect of protein level in, on abomasal nitrogen passage and utilization by steers
Diets, finishing lamb
Cement kiln dust in, 637
Diets for finishing lambs
Nutritive evaluation of a waste wood pulp in, 342
Diets, high concentrate
Adaptation to, by beef cattle. I. Adaptation to corn and wheat diets, 775
Adaptation to, by beef cattle II. Effect of ruminal pH alteration on rumen fermentation and voluntary intake of wheat diets, 785
Level of feed intake and site and extent of digestion of, by steers, 199
Diets, low to high concentrate
Effect of dietary lactic acid on rumen lactate metabolism and blood acid-base status of lambs switched from, 1569
Diets, ruminant
Various liquid by-products as a protein supplement to, 1431
Diets, supplementation of
With positive and negative urea fermentation potential using urea or soybean meal, 1417
Differentials, secondary selection
For cow productivity traits associated with seven criteria of selecting replacement beef heifers, 26
Digestion by steers
Corn particle size and site and extent of, 204
Digestion of high concentrate diets
Level of feed intake and site and extent of, by steers, 199
Digestion, rate and extent of
And potentially digestible cell wall of waste papers, 887
Digestion, rate of
Digestibility, and ruminoreticulum parameters of beef steers fed low-quality roughages, 1357
Digestibility, apparent
Effect of elfazepam on, intake and gain in sheep, 1096
Distinguished service award
Northeastern section ASAS, 1135
Dry matter intake
Relationship of animal performance and, to chemical constituents of grazed forage, 1051
Ductus epidymidis, rabbit
Distribution of seminal antigens and enzymes in the, 143

E

Ecological unit, an
The host and its microflora: , 857
Edema disease
Changes in the intestinal flora of young pigs with postweaning diarrhea or, 868
Elements in bone, toxic and essential
A review, 482
Elfazepam, a chemical feed intake stimulant a review of the behavioral and physiological responses to, 1371
Elfazepam, effect of
On apparent digestibility, intake and gain in sheep, 1096
Embryo transfer, bilateral and unilateral
Induction of twins in cattle with, 1037
Endocrine and reproductive response
Of beef cows to PMSG, 1033
Endocrine influences
On the functional differentiation of the small intestine, 239
Endotoxin, rumen bacterial
Endotoxin shock in calves from intravenous injection of, 567
Endotoxin shock in calves
From intravenous injection of rumen bacterial endotoxin, 567
Energy losses
From potato processing waste during laboratory storage, 607
Energy metabolism
Quantitative *in vitro* evaluation of the, influenced by virginiamycin and spiramycin used as growth promoters in pig nutrition, 846
Energy utilization by lambs
Effect of sex, diet and stage of growth upon, 790
Ensiling, effect of covering and dry matter at
On preservation of alfalfa in bunker silos, 298
Environment interactions, sire by
In Simmental-sired calves, 964
Environment, physical
Operant studies on the behavior of pigs and sheep in relation to the, 1125
Enzymes
Influence of supplemental nitrogen source and time on feed on tissue serine concentrations and, of serine synthesis and degradation in sheep, 1528
Enzymes, distribution of seminal antigens and
In the rabbit ductus epididymidis, 143

Estradiol benzoate
Induction of parturition in cattle with long and short acting corticoids and, 560
Estrus, control of
In gilts with a progestogen, 1506
Estrous cycle control
Fertility after, using gonadotropin and prostaglandin $F_2\alpha$ treatment of sows, 158
Estrous cycle of beef cattle
Follicular development during four states of the, 1261
Estrus and LH release
In overiectomized heifers following vaginal devices containing ovarian steroids, 554
Estrus, puberty and
In confinement-reared gilts, 727
Estrous cycle, the
Effect of an oral progestin on, and fertility of mares, 713
Evaluation, *In vitro* and *in vivo*
Of soybean residues ensiled with various additives, 1545
Evaluation programs
Evaluation and direction of beef sire, 592
Making work, 589
Ewes, crossbred
Genetic and environmental effects on milk production, milk composition and mastitis incidence in, 410
Ewes, Finnsheep-crossbred
Postpartum reproductive performance of, 1043
Ewes, unilaterally pregnant
Method for obtaining ovine uterine secretions from, 1522
Ewes, uterus and ovaries of
Patterns of blood flow to the, during the period of luteal regression, 1510
Experiments, nutrient balance
Interpretation and significance of, 826

F

Failure stress interrelationships
Horse metacarpal bone: age, ash content, cortical area and, 979
Fat distribution
Retail lean, bone and, of Angus and Charolais steers slaughtered at similar stages of physiological maturity, 683
Fat supplementation, dietary
Effect of environmental temperature and, on the performance and carcass characteristics of growing and finishing swine, 1478
Fatty acid, free
Feed intake patterns and associated blood glucose, and insulin changes in ponies, 838
Feed additives for swine
Cement kiln dust and carboxylin as, 908
Feed efficiency
Effect of monensin or lasalocid, with and without niacin or amicloral, on rumen fermentation and, 1066
Feed intake, level of
And site and extent of digestion of high concentrate diets by steers, 199
Feed intake patterns
And associated blood glucose, free fatty acid and insulin changes in ponies, 838
Feed intake stimulant, a chemical
A review of the behavioral and physiological responses to elfazepam, 1371
Feeds, ruminant
Insolubility of proteins in, by four methods, 1560
Feeding behavior of sheep
Monitoring the effects of selected compounds on, 1120
Feeding effects of full- *vs.* restricted-
Of the sow immediately postpartum on lactation performance, 50
Feeding regimen, influence of pretransit
And posttransit B-vitamin supplementation on stressed feeder steers, 310
Feeding value of corn stalklage
Effect of harvest date and chemical treatment on the, 1312
Feedlot management system, cow-calf
Simulated efficiency of beef production for a midwestern cow-calf. I. Milk production, 70. II. Mature body size, 83. III. Crossbreeding systems, 92
Feedlots
Establishing and operating inter- and intrafirm comparisons for, 1168
Feedstuffs
Relationships among diet, metabolizable energy utilization and net energy values of, 1403
Feline nutrition
Choline-methionine interrelationship in, 522
Fertility
After estrous cycle control using gonadotropin and prostaglandin $F_2\alpha$ treatment of sows, 188
Fertility of mares
Effect of an oral progestin on the estrous cycle and, 713

Fertility of rabbits
Effect of the number of males contributing to a seminal mixture on, 1497
Fescue toxicosis, summer
In lactating dairy cows and sheep fed esperimental strains of ryegrass-tall fescue hybrids, 641
Fiber digestion, a dynamic model of
And passage in the ruminant for evaluating forage quality, 1085
Fiber digestibility
Effect of wheat middlings on, serum cholesterol and glucose and fecal bile acids in pigs, 528
Finnsheep-crossbred ewes
Postpartum reproductive performance of, 1043
Flora, intestinal
Changes in the, of young pigs with postweaning diarrhea or edema disease, 868
Fly ash
Tissue retention of Se in growing pigs fed, or white sweet clover grown on, 535
Foals, yearling
Influence of protein level and quality on the growth and development of, 620
Follicular development
During four stages of the estrous cycle of beef cattle, 1261
Forage-fed beef
Increasing the tenderness of, 1207
Forage, grazed
Relationship of animal performance and dry matter intake to chemical constituents of, 1051
Forage quality
A dynamic model of fiber digestion and passage in the ruminant for evaluating, 1085
Forage, range
Beef production from mature cows on, 654
Forages
Cow and calf performance on tall fescue- or Kentucky bluegrass- ladino clover, 44
Forage intake
And rumination by sheep, 1292
Freezing, effect of
Large numbers of straws of bovine spermatozoa in an automatic freezer on post-thaw motility and acrosomal retention, 1190

G

Genotype by environment interactions
In Hereford cattle: I. Reproductive traits, 396. II. Birth and weaning traits, 403
Gilts bred at puberty
Piglet and pork production from; Chemical composition of the carcass and assessment of meat quality, 330
Gilts, control of estrus in
With a progestogen, 1506
Gilts, confinement-reared
Puberty and estrus in, 727
Glucocorticoids, role of
In lung maturation, 225
Gluconeogenesis
In neonatal piglet liver, 250
Glucose
Effect of wheat middlings on fiber digestibility, serum cholesterol and, and fecal bile acids in pigs, 528
Goat, male pygmy
Secretory patterns and circadian and seasonal changes in luteinizing hormone, follicle stimulating hormone, prolactin and testosterone in the, 543
Goat meat, palatability of
From carcasses electrically stimulated at four different stages during slaughter-dressing sequence, 972
Gonadotropin
Fertility after estrous cycle control using, and prostaglandin $F_2\alpha$ treatment of sows, 158
Gossypol, free
Effect of lysine, crude fiber and, in cottonseed meal on the performance of growing pigs, 134
Grazing, rotational and continuous
Performance of sheep under, on hill pastures, 893
Growth
Effects of protein nutrition in young pigs on developmental changes in the body and skeletal muscles during, 472
Growth and sexual development in bulls
Serum hormone patterns associated with, 1012
Growth hormone
Comparison of four levels of protein supplementation with and without oral diethylstilbestrol on blood plasma concentrations of testosterone, and insulin in young bulls, 1489
Growth hormone and insulin and plasma glucose
Serum glucocorticoids, in bulls given prostaglandin E_2 or $F_2\alpha$, 1517

Growth promotant
Effects of concentrate level, protein source and, : growth and carcass traits, 613
Effects of concentrate level, protein source and: Behavior and behavior-performance relationships, 833
Growth promoters in pig nutrition
Quantitative *in vitro* evaluation of the energy meatbolism influenced by virginiamycin and spiramycin used as, 846
Growth rate, effects of preimplant
Growth and endocrine responses of lambs to zeranol implants: and breed of sire, 291
Growth rate and puberty in females, II.
Characterization of biological types of cattle — cycle III: , 461
Growth and carcass traits
Effects of concentrate level, protein source and growth promotant: , 613
Growth and development of yearling foals
Influence of protein level and quality on the, 620
Growth hormone, secretion of
Estimates of repeatability in the temporal patterns of, (GH) prelactin (PRL) and thyrotropin (TSH) in sheep, 708
Growth, stage of
Effects of sex, diet and, upon energy utilization by lambs, 790

H

Hams from Yorkshire, crossbred and wild pigs
Chemical, physical. curing and sensory properties of, 1219
Harvest date, effect of
And cnemical treatment on the feeding value of corn stalklage, 1312
Heifers, beef
Secondary selection differentials for cow productivity traits associated with seven criteria of selecting replacement, 26
Source of progesterone prior to puberty in, 1276
Heifers, feedlot

Immunoglobulin G, A and M
And antibody response in sow-reared and artificially-reared pigs, 1116
Immunocopetence on the neonate
Prenatal influence of, 258
INDAR systemic fungicide
Tissue residues of steers grazed on wheat pasture treated with, 318

Infection, incidence of natural
Progressive pneumonia in sheep: and establishment of clean flocks, 1157
Infused sheep
Effect of amino acid pattern and level in intravenously and intraruminally, 736
Injections, intracranial
Of 5-Ht and dp cAMP and feeding in sheep and cattle, 1076
Innervation, motor
Of myofiber types in porcine skeletal muscle, 693
Insemination
Increased retention of spermatozoa in the reproductive tract of estrous rabbits after administration of prostaglandin $F_2\alpha$ immediately before, 154
Insulin
Comparison of four levels of protein supplementation with and without oral diethylstilbestrol on blood plasma concentrations of testosterone, growth hormone and, in young bulls, 1489
Insulin and plasma glucose in bulls
Serum glucocorticoids, growth hormone and, given glucocorticoids, growth hormone and, given prostaglandin E_2 or $F_2\alpha$, 1517
Insulin changes in ponies
Feed intake patterns and associated blood glucose, free fatty acid and, 838
Insulin, secretion of
By the nonruminant herbivore (pony) pancreas perfused *in vitro*, 1021
Interactions, lactate, pyruvate and acetate
During *in vitro* lipogenesis in bovine adipose tissue, 1410
Intestine, small
Endocrine influences on the functional differentiation of the, 239
Intrauterine events, influence of
On postnatal survival in the pig, 221
Intravaginal devices
For feedlot heifers, 915
Ions, ammonium, potassium, sodium, chloride and hydroxyl
Comparison of, on *in vitro* dry matter disappearance of milo stalks, 1324
Iron absorptive function
Of neonatal pig intestine, 743
Iron stores of pigs
Effects of copper sulfate and ferrous sulfide on performance and liver copper and, 507

K

^{40}K whole-body counting
Utilization of animal phantoms to increase the accuracy of, 1458

L

Lactic acid, dietary
Effect of, on rumen lactate metabolism and blood acid-base status of lambs switched from low to high concentrate diets, 1569
Lactic acidosis in sheep, induced
Ruminal changes during the onset and recovery of, 1161
Lactic acidosis induced in sheep
Effect of thiopeptin and sodium bicarbonate on the prevention of, 1396
Lamb diets, finishing
Cement kiln dust in, 637
Lamb management
Systems analysis of production alternative for, 1176
Lamb production, increased
With rams exposed to short day-lengths during the nonbreeding season, 927
Lambs
Effect of dietary lactic acid in rumen lactate metabolism and blood acid-base status of, switched from low to high concentrate diets, 1569
Effect of dietary monensin on coccidial oocyst numbers, feedlot performance and carcass characteristics of, 10
Lambs and steers fed a liquid supplement
Effect of readily available carbohydrate and roughage source on performance of, 1552
Lambs, energy utilization by
Effects of sex, diet and stage of growth upon, 790
Lambs, finishing
Nutritive evaluation of a waste wood pulp in diets for, 342
Lambs, growth and endocrine responses of
To zeranol implants: Effects of preimplant growth rate and breed of sire, 291
Lamb, performance, feeder
Effects of artificial lighting on, 1
Lambs, Suffolk sired
Performance and carcass characteristics of, from Panama and Finn x Panama dams, 55
Lasalocid, effect of monensin or
With and without niacin or amicloral, on rumen fermentation and feed efficiency, 1066

Learning, discrimination reversal
In yearling horses, 583
Lesions, biochemical
Associated with taurine deficiency in the cat, 1227
Leucine requirements
Of the lactating sow, 498
Lighting, effects of artificial
On feeder lamb performance, 1
Lighting, supplemental
Negative effect of bovine pineal gland extract and positive effect of, on lactation in mice, 1270
Limousin sire evaluation
Sire by breed of dam interaction for weaning weight in, 63
Lipids, extractable
Effect of frozen storage time, cooking and holding temperature upon, and TBA values of beef and chicken, 701
Lipogenesis, *in vitro*
Lactate, pyruvate and acetate interactions during, in bovine adipose tissue, 1410
Litter variation, within- and between-
Of proximate composition in newborn and 10-day-old Landrace swine, 1449
Liver copper and iron stores of pigs
Effects of copper sulfate and ferrous sulfide on performance and, 507
Liver, neonatal piglet
Gluconeogenesis in, 250
Longissimus muscle quality
Influence of diet composition and pharmacological treatment on, and metabolism in swine, 675
Lung maturation
Role of glucocorticoids in, 225
Lysine, effect of
Crude fiber and free gossypol in cottonseed meal on the performance of growing pigs, 134
Lysine source and level, dietary
Effect of environmental temperature and, on the performance and carcass characteristics of growing swine, 1242

M

Manganese, chemical forms of
Manganese retention in rats fed different diets and, 1235
Manganese retention in rats
Fed different diets and chemical forms of manganese, 1235
Mares, fertility of
Effect of an oral progestin on the estrous cycle and, 713
Mastitis incidence in crossbred ewes
Genetic and environmental effects on milk production, milk composition and, 410
Mating plans
The use of production systems analysis in developing, and selection goals, 809
Maturity, physiological
Retail lean, bone and fat distribution of Angus and Charolais steers slaughtered at similar states of, 683
Meat quality, assessment of
Piglet and pork production from gilts bred at puberty; chemical composition of the carcass and, 330
Memorials, 1692
Metabolism in swine
Influence of diet composition and pharmacological treatment on *longissimus* muscle quality and, 675
Metabolism of betaine
In the ruminant, 764
Metabolism, rumen lactate
Effect of dietary lactic acid on, and blood acid-base status of lambs switched from low to high concentrate diets, 1569
Mice
Negative effect of bovine pineal gland extract and positive effect of supplemental lighting on lactation in, 1270
Microbes, ruminal
Chemical inhibition of amino acid deamination by, *in vitro*, 1101
Microbial nitrogen compounds
Synthesis of, in the rumen and their subsequent digestion, 1604
Microflora
The host and its: an Ecological unit, 857
Milk composition
Genetic and environmental effects on milk production, and mastitis incidence in crossbred ewes, 410
Milk production
Genetic and environmental effects on, milk composition and mastitis incidence in crossbred ewes, 410
Milk production, I.
Simulated efficiency of beef production for a midwestern cow-calf-feedlot management system, 70
Milk production in Hereford cattle

Quantitative and dynamic aspects of, : A modeling analysis, 1631
Nitrogen passage, abomasal
Effect of protein level in corn-corn silage diets on, and utilization by steers, 177
Nitrogen source, influence of supplemental
And time on feed on tissue serine concentrations and enzymes of serine synthesis and degradation in sheep, 1528
Nitrogen (^{15}N) utilization
And microbial protein synthesis in the rumen of urea fed cattle, 1306
Norepinephrine
Influence of ovarian steroids on the response of ovarian uterine arterial smooth muscle to, 151
Nursery capacity
Double and triple decking of pigs to increase, 39
Nutrient balance experiments
Interpretation and significance of, 826
Nutrition, feline
Choline-methionine interrelationship in, 522

O

Oral progestin, effect of an
On the estrous cycle and fertility of mares, 713
Overiectomized heifers
Estrus and LH release in, following vaginal devices containing ovarian steroids, 554
Ovarian steroids, influence of
On the response of ovine uterine arterial smooth muscle to norepinephrine, 151

Ovine uterine secretions,
Method for obtaining, from unilaterally pregnant ewes, 1522

P

Palatability, III. Carcass composition, quality and
Characterization of biological types of cattle – cycle. II., 448
Palatability of goat meat
From carcasses electrically stimulated at four different stages during the slaughter-dressing sequence, 972
Pancreas perfused *in vitro*
Secretion of insulin by the nonruminant herbivore (pony), 1021
Papers, waste
Rate and extent of digestion and potentially digestible cell wall of, 887
Parameters, reticulorumen
Influence of cement kiln dust on, of beef steers fed complete diets, 1364
Parameters, ruminoreticulum
Digestibility, rate of digestion and, of beef steers fed low-quality roughages, 1357
Parasites, gastrointestinal
In beef cows, 306
Parturition in cattle, induction of
With long and short acting corticoids and estradiol benzoate, 560
Parturition, induction of
In sows with a prostaglandin analog, 367
Parasite resistance
In straightbred and crossbred Barbados Blackbelly sheep, 919
Pastures, hill
Performance of sheep under rotational and continuous grazing on, 893
Performance and carcass characteristics
Effect of environmental temperature and dietary fat supplementation on the, of growing and finishing swine, 1478
Of Suffolk sired lambs from Panama and Finn X Panama dams, 55
Performance, feeder lamb
Effects of artificial lighting on, 1
Performance, feedlot
Effect of dietary monensin on coccidial oocyst numbers, and carcass characteristics of lambs 10
Performance of feedlot steers
Reimplanted with DES or Synovex-S, 324
Performance of growing pigs
Effect of lysine, crude fiber and free gossypol in cotton seed meal on the, 134
Performance of lambs and steers
Effect of readily available carbohydrate and roughage source on, fed a liquid supplement, 1552
Performance of pigs
Influence of an experimental infection of *Trichuris suis* on, 1000
Performance, lactation
Effects of full-*vs* restricted-feeding of the sow immediately postpartum on, 50
Performance, postpartum reproductive
Of Finnsheep-crossbred ewes, 1043
Performance, relationship of animal
And dry matter intake to chemical constituents of grazed forage, 1051
Performance, reproductive
Effect of dietary protein sequence of long-term sow, 514
Permanganate lignin, acid insoluble ash and
As indicators to determine digestibility of cattle rations, 1112
Phosphorus in corn, wheat and barley
Availability of, for the chick, 992
Pig intestine
Iron absorptive function of neonatal, 743
Pig nutrition
Quantitative *in vitro* evaluation of the energy metabolism influenced by virginiamycin and spiramycin used as growth promoters in, 846
Pig performance, young
Effects of sulfate in water on swine reproduction and, 669
Pig, postnatal survival in
Influence of intrauterine events on, 221
Piglet and pork production
From gilts bred at puberty; chemical composition of the carcass and assessment of meat quality, 330
Piglet, neonatal
Gluconeogenesis in, liver, 250
Pigs
Effects of copper sulfate and ferrour sulfide on performance and liver copper and iron stores of, 507
Pigs and sheep, behavior of
Operant studies on the, in relation to the physical environment, 1125
Pigs, double and triple decking of
To increase nursery capacity, 39
Pigs, fecal bile acids in
Effect of wheat middlings on fiber digesti-

bility, serum cholesterol and glucose and fecal bile acids in pigs, 528
Pigs, growing
Effect of lysine, crude fiber and free gossypol in cottonseed meal on the performance of, 134
Tiamulin in the feed for the prevention of swine dysentery and growth promotion of, 933
Tissue retention of Se in, fed fly ash or white sweet clover frown on fly ash, 535
Pigs, performance of
Influence of an experimental infection of *Trichuris suis* on, 1000
Purebred and corssbred, 943
Pigs, purebred and crossbred
Performance of, 943
Pigs, stress-susceptible and stress-resistant
Creatine phosphokinase isoenzymes in, 1464
Pigs, Yorkshire, crossbred and wild
Chemical, physical, curing and sensory properties of hams from, 1219
Pigs, young
Changes in the intestinal flora of, with postweaning diarrhea or edema disease, 868
Effects of protein nutrition in, on developmental changes in the body and skeletal muscles during growth, 472
Evaluation of a yeast single cell protein with, 1252
Pineal gland extract, bovine
Negative effect of, and positive effect of supplemental lighting on lactation in mice, 1270
Pinkeye
(Bovine infectious keratoconjunctivitis) in beef cattle, 361
Placement
287, 604, 883, 1141, 1428, 1701
Plasma glucose
Serum glucocorticoids, growth hormone and insulin and, in bulls given prostaglandin E_2 or $F_2\alpha$, 1517
PMSG, response of beef cows to
Endocrine and reproductive, 1033
Pneumonia in sheep, progressive
Incidence of natural infection and establishment of clean flocks, 1157
Pony mares, gestating
Effect of corn silage and turkey litter on the performance of, and weanlings, 651
Pony
Secretion of insulin by the nonruminant herbivore, pancreas perfused *in vitro*, 1021
Ponies
Feed intake patterns and associated blood glucose, free fatty acid and insulin changes in, 838
Ponies, nitrogen metabolism in
Effect of cecal administration of corn starch on, 988
Postweaning growth and puberty in heifers, II.
Heterosis among closed lines of Hereford cattle, 958
Potato processing waste
Energy losses from, during laboratory storage, 607
Pregnancy rates in beef cattle
Effect of clitoral stimulation and length of time to complete AI on, 647
Preweaning growth and survival, I.
Heterosis among closed lines of Hereford cattle, 950
Preceedings of the 71st annual meeting
Of the American Society of Animal Science, 1660
Production systems analysis, the use of
In developing mating plans and selection goals, 809
Productivity in Hereford and Angus cows
Multivariate evaluation of phenotypic relationships between early performance and subsequent, 378
Productivity of two-year-old crossbred cows
Producing three-breed cross calves, 1195
Progesterone, source of
Prior to puberty in beef heifers, 1276
Progestogen
Control of estrus in gilts with a, 1506
Projections of the US cattle cycle
In the 80's, 629
Prolactin and testosterone
Secretory patterns and circadian and seasonal changes in luteinizing hormone,follicle stimulating hormone, in the male pygmy goat, 543
Prolactin (PRL) and thyrotropin (TSH)
Estimates of repeatability in the temporal patterns of secretion of growth hormone (GH), in sheep, 708
Prostaglandin analog
Induction of parturition in sows with a, 367
Prostaglandin E_2 or $F_2\alpha$
Serum glucorticoids, growth hormone and insulin and plasma glucose in bulls given, 1517
Prostaglandin $F_2\alpha$
Fertility after estrous cycle control using gonadotropin and, treatment of sows, 158

Increased retention of spermatozoa in the reproductive tract of estrous rabbits after administration of, immediately before insemination, 154
Protein degradation
In the forestomachs of ruminants, 1615
Protein source
Effects of concentrate level, and growth promotant: growth and carcass traits, 613
Effects of concentrate level, and growth promotant: behavior and behavior-performance relationships, 833
Protein supplement to ruminant diets
Various liquid by-products as a, 1431
Protein supplementation
Comparison of four levels of, with and without oral diethylstilbestrol on blood plasma concentrations of testosterone, growth hormone and insulin in young bulls, 1489
Proteins, insolubility of
In ruminant feeds by four methods, 1560
Prostaglandin $F_2\alpha$ influence of
On spermatogenesis, spermatozoal output, seminal quality, testosterone levels and libido of yearling beef bulls, 720
Protective agents, evaluation of
Applied to soybean meal and fed to cattle. I. Laboratory measurements, 1337. II. Feedlot trials, 1346
Protein, a yeast single cell
Evaluation of α, with young pigs, 1252
Protein, brewers dried grains
Ruminal bypass of, 192
Protein in sheep, dietary crude
Duodenal nitrogen flow in response to increasing, 211
Protein level effect of
In corn-corn silage diets on abomasal nitrogen passage and utilization by steers, 177
Protein level, influence of
And quality of the growth and development of yearling foals, 620
Protein nutrition, effects of
In young pigs on developmental changes in the body and skeletal muscles during growth, 472
Protein sequence, effect of dietary
On long-term sow reproductive performance 514
Protein synthesis
Soluble rumen liquor lignin hemicellulose: Composition and influence on *in vitro* rumen microbial, 163
Protein synthesis, microbial
Nitrogen (^{15}N) utilization and, in the rumen of urea fed cattle, 1306
Protozoal counts, ruminal
Effect of increased levels of urea in the diet on, in four ruminant species, 1300
Puberty and estrus
In confinement-reared gilts, 727
Puberty, gilts bred at
Piglet and pork production from:
Chemical composition of the carcass and assessment of meat quality, 330
Puberty in beef heifers
Source of progesterone prior to, 1276
Puberty in females, growth rate and, II.
Characterization of biological types of cattle – cycle III. , 461
Puberty in heifers
Heterosis among closed lines of Hereford cattle. II. Postweaning growth and, 958

Q

Quackgrass, effect of tall fescue and
On copper metabolism and weight gains of beef cattle, 893
Quality and palatability, III. Carcass composition
Characterization of biological types of cattle – cycle II: , 448

R

Rabbit ductus epididymidis
Distrubution of seminal antigens and enzymes in the, 143
Rabbits, estrous
Increased retention of spermatozoa in the reproductive tract of, after administration of prostaglandin $F_2\alpha$ immediately before insemination, 154
Rabbits, fertility of
Effect of the number of males contributing to a seminal mixture on, 1497
Rams exposed to short daylengths
Increased lamb production with, during the nonbreeding season, 927
Rations, beef cow
Wheat straw and sodium hydroxide treatment in, 354
Rations, cattle
Acid insoluble ash and permanganate lignin as indicators to determine digestibility of, 1112

Rats, manganese retention in
Fed different diets and chemical forms of manganese, 1235
Regression, luteal
Patterns of blood flow to the uterus and ovaries of ewes during the period of, 1510
Reproduction, some measures of
Heritability estimates for, in Hereford heifers, 668
Retention, acrosomal
Effect of freezing large numbers of straws of bovine spermatozoa in an automatic freezer on post-thaw motility and, 1190
Review, a
Methods for determining and factors affecting rumen microbial protein synthesis, 1590
Ronnel
Performance, ruminal measurements and blood plasma amino acids of steers fed, 1059
Roughage level
Thiopeptin and, for feedlot steers, 1145
Roughages, low-quality
Digestibility, rate of digestion and rumino-reticulum parameters of beef steers fed, 1357
Rumen bacterial endotoxin
Endotoxin shock in calves from intravenous injection of, 567
Rumen digestion, efficiency of
Effect of sodium hydroxide on, 1317
Rumen fermentation and feed efficiency
Effect of monensin or lasalocid, with or without niacin or amicloral, on, 1066
Rumen liquor lignin hemicellulose, soluble
Composition and influence on *in vitro* rumen microbial protein synthesis, 163
Rumen microbial growth, efficiency of
Influence of some theoretical and experimental factors on YATP, 1640
Rumen microbial protein synthesis
Methods for determining factors affecting: A review, 1590
Rumen microbial protein synthesis, *in vitro*
Soluble rumen liquor lignin hemicellulose composition and influence on, 153
Rumen, nitrogen metabolism in the
Quantitative and dynamic aspects of, : A modeling analysis, 1631
Rumen of dairy cattle
An analysis of the buffer system in the, 1536
Ruminal changes
During the onset and recovery of induced lactic acidosis in sheep, 1161
Ruminal measurements
Performance, and blood plasma amino acids of steers fed ronnel, 1059
Ruminal pH alteration on rumen fermentation
Adaptation to high concentrate diets by beef cattle. II. Effect of, and voluntary intake of wheat diets, 785
Ruminant feeds
Insolubility of proteins in, by four methods, 1560
Ruminant, the
A dynamic model of fiber digestion and passage in, for evaluating forage quality, 1085
Metabolism of betaine in, 764
Ruminants
Nutritive value of "weathered" sorghum grain for, 183
Ruminants, blood of
Free amino acids in – physiological and nutritional regulation, 1577
Ruminants, forestomachs of
Protein degradation in the, 1615
Rumination
Forage intake and, by sheep, 1292
Ryegrass-tall fescue hybrids
Summer fescue toxicosis in lactating dairy cows and sheep fed experimental strains, 641

S

Salmonella typhimurium
Influence of a subtherapeutic level of virginamycin in feed on the incidence and persistence of, in experimentally infected swine, 128
Season, nonbreeding
Increased lamb production with rams exposed to short daylengths during the, 927
Secretions, ovine uterine
Method for obtaining, from unilaterally pregnant ewes, 1522
Selection goals
The use of production systems analysis in developing mating plans and, 809
Seminal antigens and enzymes, distribution of
In the rabbit ductus epididymidis, 143
Seminal mixture
Effect of the number of males contributing to a, on fertility of rabbits, 1497
Seminal quality
Influence of prostaglandin $F_2\alpha$ on spermatogenesis, spermatozoal output, testosterone

levels and libido of yearling beef bulls, 720
Serine synthesis and degradation in sheep
Influence of supplemental nitrogen source and time on feed on tissue serine concentrations and enzymes of, 1528
Serum cholesterol
Effect of wheat middlings on fiber digestibility, and glucose and fecal bile acids in pigs, 528
Serum glucocorticoids
Growth hormone and insulin and plasma glucose in bulls given prostaglandin E_2 or $F_2\alpha$, 1517
Serum hormone patterns
Associated with growth and sexual development in bulls, 1012
Sex, diet and stage of growth
Effects of, upon energy utilization by lambs, 790
Sheep
Carcass evaluation of two- and three-way crosses of six breeds of, 1151
Duodenal nitrogen flow in response to increasing dietary crude protein in, 211
Effect of elfazepam on apparent digestibility, intake and gain in, 1096
Effect of thiopeptin and sodium bicarbonate on the prevention of lactic acidosis induced in, 1396
Estimates of repeatability in the temporal patterns of secretion of growth hormone (GH) prolactin (PRL) and thyrotropin (TSH) in, 708
Forage intake and rumination by influence of supplemental nitrogen source and time on feed and tissue serine concentrations and enzymes of serine snythesis and degradation in, 1292
Length of breeding season for eight breed groups of, in Wisconsin, 939
Summer fescue toxicosis in lactating dairy cows and, fed experimental strains of ryegrass-tall fescue hybrids, 641
Sheep, induced lactic acidosis in
Ruminal changes during the onset and recovery of, 1161
Sheep, progressive pneumonia in
Incidence of natural infection and establishment of clean flocks, 1157
Sheep and cattle
Intracranial injections of 5-HT and db cAMP and feeding in, 1076
Sheep, digestibility, intake and gain in
Effect of elfazepam on apparent, 1096
Sheep, feeding behavior of
Monitoring the effects of selected compounds on, 1120
Sheep, performance of
Under rotational and continuous grazing on hill pastures, 893
Sheep, intraruminally infused
Effect of amino acid pattern and level in intravenously and, 752
Sheep, pigs and
Operant studies on the behavior of, in relation to the physical environment, 1125
Sheep, straightbred and crossbred
Barbados Blackbelly parasite resistance in, 919
Silos, bunker
Effect of covering and dry matter at ensiling on preservation of alfalfa in, 298
Simmental-Sired calves
Sire by environment interactions in, 964
Sire evaluation programs
Making, work, 589
Sire evaluation, Limousin
Sire by breed of dam interaction for weaning weight in, 63
Sodium bicarbonate
Effect of thiopeptin and, on the prevention of lactic acidosis induced in sheep, 1396
Sodium hydroxide, effect of
On efficiency of rumen digestion, 1317
Sodium hydroxide treatment
Wheat straw and, in beef cow rations, 354
Sorghum grain "weathered"
Nutritive value of, for ruminants, 183
Sow, feeding of the
Effects of full *vs* restricted, immediately postpartum on lactation performance, 50
Sow reproductive performance
Effect of dietary protein sequence on long-term, 514
Sow, the lactating
Leucine requirements of, 498
Sows
Fertility after estrous cycle control using gonadotropin and prostaglandin $F_2\alpha$ treatment of, 158
Induction of parturition in, with a prostaglandin analog, 367
Soybean meal
Evaluation of protective agents applied to, and fed to cattle. I. Laboratory measurements, 1337. II. Feedlot trials, 1346
Supplementation of diets with positive and negative urea fermentation potention using urea or, 1417

Soybean residues
In vitro and *in vivo* evaluation of, ensiled with various additives, 1545
Spermatogenesis
Influence of prostaglandin $F_2\alpha$ on, spermatozoal output, seminal quality, testosterone levels and libido of yearling beef bulls, 720
Spermatozoa, increased retention of
In the reproductive tract of estrous rabbits after administration of prostaglandin $F_2\alpha$ immediately before insemination, 154
Spermatozoal output
Influence of prostaglandin $F_2\alpha$ on spermatogenesis, seminal quality, testosterone levels and libido of yearling beef bulls, 720
Spiramycin
Quantitative *in vitro* evaluation of the energy metabolism influenced by virginiamycin and, used as growth promoters in pigs nutrition, 846
Sporulation of bovine coccidia, prevention of
By the ensiling of a manure-blended diet, 1331
Steers
Effect of protein level in corn-corn silage diets on abomasal nitrogen passage and utilization by, 177
Levels of feed intake and site and extent of digestion of high concentrate diets by, 199
Tissue residues of, grazed on wheat pasture treated with INDAR systemic fungicide, 318
Steers, Angus and Charolais
Retail lean, bone and fat distribution of, slaughtered at similar stages of physiological maturity, 683
Steers, Angus, Brahman, Charolais and crossbred
Breed and heterosis effects on carcass characteristics of, 391
Steers, digestion by
Corn particle size and site and extent of, 204
Steers fed a liquid supplement
Effect of readily available carbohydrate and roughage on performance of lambs and, 1552
Steers fed ronnel
Performance, ruminal measurements and blood plasma amino acids of, 1059
Steers, fedlot
Performance of, reimplanted with DES or Synovex-S, 324
Steers, feedlot
Thiopeptin and roughage level for, 1145
Steers, stressed feeder
Influence of pretransit feeding regimen and posttransit B-vitamin supplementation on, 310
Steriods, ovarian
Estrus and LH release in ovariectomized heifers following vaginal devices containing ovarian steroids, 554
Storage, laboratory
Energy losses from potato processing waste during, 607
Storage time, effect of frozen
Cooking and holding temperature upon extractable lipids and TBA value of beef and chicken, 701
Studies, operant
On the behavior of pigs and sheep in relation to the physical environment, 1125
Sulfate in water
Effects of, on swine reproduction and young pig performance, 669
Supplement, liquid
Effect of readily available carbohydrate and roughage source on performance of lambs and steers fed a, 1552
Survival, postnatal
Influence of intrauterine events on, in the pig, 221
Swine diets, effect of copper in
On fresh waste composition and anaerobic decomposition, 20
Swine dysentery, the prevention of
Tiamulin in the feed for, and growth promotion of growing pigs, 933
Swine, experimentally infected
Influence of a subtherapeutic level of virginiamycin in feed on the incidence and persistence of *Salmonella typhimurium* in, 128
Swine, feed additives for
Cement kiln dust and carboxylin as, 908
Swine, finishing
Effects of aflatoxins on, 1006
Swine, growing
Effect of environmental temperature and dietary lysine source and level on the performance and carcass characteristics of, 1242
Swine, growing and finishing
Effect of environmental temperature and dietary fat supplementation on the

performance and carcass characteristics of, 1478
Swine, Landrace
Within- and between-litter variation of proximate composition in newborn and 10-day-old, 1449
Swine, metabolism in
Influence of diet composition and pharmacological treatment on *longissimus* muscle quality and, 675
Swine reproduction
Effects of sulfate in water on, and young pig performance, 669
Swine, young
Choline-methionine interactions in, 736
Utilization of energy of wheat and barley by, 1470
Synovex-S, DES or
Performance of feedlot steers reimplanted with, 324
Systems analysis
Of production alternative for lamb management, 1176
Systems analysis, the use of
In animal science with emphasis on animal breeding, 817

T

Taurine deficiency in the cat
Biochemical lesions associated with, 1227
TBA values of beef and chicken
Effect of frozen storage time, cooking and holding temperature upon extractable lipids and, 701
Temperature, ambient
Reproductive characteristics of boars during and after exposure to increased, 1501
Temperature, effect of environmental
And dietary fat supplementation on the performance and carcass characteristics of growing and finishing swine, 1478
Tenderness, increasing the
Of forage-fed beef, 1207
Tenderness variations among beef steaks
From carcasses of the same USDA quality grade, 103
Testosterone in the male pygmy goat
Secretory patterns and circadian and seasonal changes in luteinizing hormone, follicle stimulating hormone, prolactin and, 543
Testosterone, growth hormone and insulin
Comparison of four levels of protein supplementation with and without oral diethylstilbestrol on blood plasma concentrations of, in young bulls, 1489
Testosterone levels and libido of yearling beef bulls,
Influence of prostaglandin $F_2\alpha$ on spermatogenesis, spermatozoal output, seminal quality, 720
Thiopeptin
And roughage level for feedlot steers, 1145
Thiopeptin and sodium bicarbonate, effect of
On the prevention of lactic acidosis induced in sheep, 1396
Thyrotropin (TSH) in sheep
Estimates of repeatability in the temporal patterns of secretion of growth hormone (GH), prolactin (PRL) and, 708
Tiamulin in the feed
For the prevention of swine dysentery and growth promotion of growing pigs, 933
Tissue residues of steers
Grazed on wheat pasture treated with INDAR systemic fungicide, 318
Tissue retention of Se in growing pigs fed fly ash or white sweet clover grown on fly ash, 535
Toxic and essential elements in bone
A review, 482
Traits, I. reproductive
Genotype by environment interactions in breeding cattle: , 396
Traits, II. birth and weaning
Genotype by environment interaction in Hereford cattle: , 403
Trichuris suis
Influence of an experimental infection of, on performance of pigs, 1000
Turkey litter
Effect of corn silage and, on the performance of gestating pony mares and weanlings, 651
Twins in cattle, induction of
With bilateral and unilateral embryo transfer, 1037

U

Urea, effect of increased levels of
In the diet on ruminal protozoal counts in four ruminant species, 1300
Urea or soybean meal
Supplementation of diets with positive and negative urea fermentation potential using, 1417

USDA quality grade
Tenderness variations among beef steaks from carcasses of the same, 103

V

Vaginal devices
Estrus and LH release in ovariectomized heifers following
containing ovarian steroids, 554
Virginiamycin and spiramycin
Quantitative *in vitro* evaluation of the energy metabolism influenced by,
used as growth promoters in pig nutrition, 846
Virginiamycin, influence of a subtherapeutic level of
In feed on the incidence and persistence of *Salmonella typhimurium* in experimentally infected swine, 128

W

Waste composition, fresh
Effect of copper in swine diets on, and anaerobic decomposition, 20
Waste, solid cellulosic
Nutrient composition and contaminants of, 1281
Water, effects of sulfate in
On swine reproduction and young pig performance, 669
Weanlings, gestating pony mares and
Effect of corn silage and turkey litter on the performance of, 651
Wheat and barley
Utilization of energy of, by young swine, 1470
Wheat diets, voluntary intake of
Adaptation to high concentrate diets by beef cattle. II. Effect of ruminal pH alteration on rumen fermentation and, 785
Wheat middlings, effect of, 785
On fiber digestibility, serum cholesterol and glucose and fecal bile acids in pigs, 528
Wheat pasture
Tissue residues of steers grazed on, treated with INDAR systemic fungicide, 318
Wheat straw
Ammonium hydrozide treatment of, 802
And sodium hydroxide treatment in beef cow rations, 354
Wisconsin, sheep in
Length of breeding season for eight breed groups of, 939
Wood pulp, waste
Nutritive evaluation of a, in diets for finishing lambs, 342

Y

^{Y}ATP
Efficiency of rumen microbial growth: Influence of some theoretical and experimental factors on, 1640
Yearling foals
Influence of protein level and quality on the growth and development of, 620
Younger scientist award for research, teaching and extension
Midwestern section ASAS, 1136

Z

Zeranol implants
Growth and endocrine responses of lambs to, : Effects of preimplant growth rate and breed of sire, 291
Zinc diet, a low
Effect of, on the ewe during pregnancy and lactation, 1234
